Attractive Showing of Pictures Next Week at Deerpath

The same sort of thrill devices which Harold Lloyd used in "Safety Last," his famous building-scaling film are to be seen in "Feet First" which is being shown today and tomorrow at the Deerpath theatre.

"The Dancers" is the second picture in which Byron has been featured with Lois Moran. This is to be shown Saturday in conjunction with "See America Thirst" with Harry Langdon, Slim Summerville and Bessie Love.

Sunday and Monday the feature picture will be "Fast and Loose," with Francis Bushman. He will appear in person at the Deerpath in a delightful act entitled "Once a Gentleman," Sunday. He is on an extended tour and his many film fans here will want to see him.

Carroll Clark, art director of the Pathe studios, asserts that the sets for "Sin Takes a Holiday," starring Constance Bennett, which is booked for Tuesday and Wednesday, are the finest and most elaborate ever built for a Pathe production.

Marjorie White is one of the featured comedienne in "Just Imagine," the DeSylva, Brown and Henderson Fox Movietone comedy with music which is to open at the Deerpath Thursday and Friday.

Connie Bennett Acts as Technical Advisor

Constance Bennett added a new touch to an old Hollywood custom by acting as technical advisor for certain sequences of her own starring picture, "Sin Takes a Holiday."

Much of the action of this smart Pathe production takes place in Paris and other fashion centers of continental Europe, places with which Miss Bennett is thoroughly familiar. She spends at least four months each year abroad, having an apartment in Paris and a villa at Cannes.

When any of the technical staff got stuck with a problem, they turned to the star for advice. She was particularly helpful with scenes which show her making a tour of seven Parisian shops. Most of her shopping is done in Paris.

"See America Thirst"

Several unusual characters are included in the group of extras employed in "See America Thirst." With the discovery of Baroness Wandeyne Death of Arad, Hungary, an inquiring reporter found the following well known personalities on the set: "One-Eyed" Connelly, world champion "gate crasher"; "Kid" Broad, a one-time popular prize fighter; and Edgar Fortune, a former member of the British diplomatic service in India. Featured in the picture are Harry Langdon, Slim Summerville, and Bessie Love.

City of Future Is Shown in Great Film

With the rapid development of the airplane and other modes of transportation and the increasing problem of traffic in our great cities, what will New York look like in 1980?

Buddy DeSylva, Lew Brown and Ray Henderson, multi-millionaire authors and song writers, have attempted to answer that question in "Just Imagine," their second Fox Movietone comedy with songs.

Huge modernistic skyscrapers tower 200 and more stories above the street level. Fleets of airplanes, all equipped with helicopters that permit straight up and down flying, coming to a complete stop in the air, cruise the air lines. Aerial traffic cops, in anchored balloons, direct traffic. Great air liners bring all the capitals of the world within a few hours travel of the American metropolis.

Nine traffic levels are provided, ranging from subways, surface trams, elevated railways and five automobile levels, to a novel canal system that permits great ocean liners to traverse the main thoroughfares, discharging freight and passengers much as do the huge buses of our day.

This one background is the greatest ever attempted in talking pictures.
