

Is Your Chimney or Flue Pipe Hot?

If so, an enormous amount of fuel is being wasted

Are Your Fuel Bills Too High?

We can materially reduce them

THE Field Fuel Saver

will reduce heat losses through the chimney more than 50%. It automatically regulates your draft, furnishing at all times irrespective of weather conditions, exactly the right amount of draft for proper combustion of

OIL-COAL-GAS

Guaranteed to save a minimum of 15%. Our engineer will make a survey of your heating plant, and give you estimate without the least obligation.

COMMUNITY SERVICE RECREATION FEATURES

Hobbies, Basketball and Other Sports Sponsored; Nature Games; Museums

Have you a hobby? Of course—perhaps you have several. Is it fishing—or Ping Pong? Perhaps it is photography or sketching or painting — If so you may be interested in forming associates with like interests. The recreation office is the port where hobbies may drop anchor. We will be happy to talk over mutual leisure time interests with you.

Athletic Leagues

Basketball, indoor baseball, volleyball are being included in the Athletic program organized for the community.

A woman's gymnasium class; an athletic club for young women, and a men's gymnasium class afford opportunity for adult recreation while the 28 basketball teams offer means for competitive playing under leadership.

Nature Games

There are a number of most interesting games using nature materials. These may be played by large or small groups on the trail and are as good for winter as summer.

One of the best known nature games was the old time "Treasure hunt."

A new adaptation of the game in-

volves the technique of laying a trail as well as that of following one, and this requires some understanding of nature materials.

Nature Museums

Has your home the museum habit? Such an activity is both interesting and instructive and forms a bond between generations. There are numerous games to be played in connection with these home museums, and they involve expeditions to out of the way places for materials, and adventure, and surprises.

The recreation office will gladly assist in any recreation projects for individuals or groups in the community. Special clubs or classes will be formed to feature special recreation activities for which there is a demand. The office phone of Community Service is 858. Address, 378 Central avenue.

"The whole end and object of education is training for the right use of leisure."

Mr. and Mrs. Charles Cook of McGovern street announce the birth of a baby girl, born at the Highland Park hospital on Saturday, Feb. 7.

About seventy-five Sunday school workers are enrolled in the Community Training school which held its first session on Monday evening. Fourteen Sunday schools are represented, this being a very fine record.

Announcement has been made of the marriage of Signe E. Dahlstrom to Gust Carlson, both of Highland Park.
