Again WE REPEAT COMPARE

Compare the values, prices and service we give you with those of any other tire dealer or distributor of special brands.

The low prices of rubber and cotton give Firestone unusual advantages due to their world-wide facilities in securing these raw materials and their efficient manufacturing. With Firestone's most economical distributing system, with over 600 branches, warehouses and service stores, we can secure a complete line of fresh Firestone tires, tubes, batteries, brake lining, rims and accessories within a few minutes' to a few hours' time and give our customers values and service that are not duplicated.

COMPARE VALUES

Firestone has this year added more rubber to the tread which gives 20% to 25% more safe mileage before the tread wears smooth.

The Firestone Double Cord Breaker gives you SIX and EIGHT plies under the tread—spreads road shocks—lessens punctures—gives over 50% stronger union between tread and tire body which ensures longer tire life and greater safety.

Live rubber penetrates every cord and coats every fiber by the patented Gum-Dipping process—thus not only every cord, but every fiber within the cords, is insulated: this gives you 25% to 40% added tire life.
