

FIX NEW RULES FOR HANDLERS OF MILK

Stricter Sanitary Requirements for Milkmen and Others Are Prescribed

A health certificate for every worker who handles milk, including wagon drivers, the use of only mechanical cappers and the use of chemical solutions of specified strength for sterilizing bottles, are the leading features in a new set of minimum sanitary requirements for milk pasteurization plants in Illinois which have been adopted by the state department of public health.

The new standards raise the sanitary requirements of milk pasteurization plants in this state to a new high level which promises to place upon the market dairy products unsurpassed anywhere in wholesomeness and safety from contamination. Every milk pasteurizing plant is required to employ mechanical devices that will prevent the possibility of any leakage of unpasteurized milk into that which has been pasteurized. Each plant is also required to be equipped with a specified type of recording thermometer so as to eliminate errors in the pasteurization process. Specifications are laid down for the construction of cooling devices.

A law enacted in 1925 gives the state department of public health sanitary supervision over all milk pasteurizing plants in the state outside of Chicago and makes it the duty of the department to set up minimum sanitary requirements with which all plants must comply in order to obtain certificates of approval.

Legion Baseball Teams May Enroll Fifteen in Each This Year, Report

Indianapolis, Ind.—The new American Legion Junior Baseball handbook, containing all of the 1931 official rules, is now off the press and ready for distribution, the Legion's Americanism Commission here has announced. The booklet is made up attractively with many pictures of 1930 players and teams. It gives general information about the program for the coming season, interpretations and suggestions for carrying out 1931 rules and reviews the 1930 play. The handbook may be had by writing to the National Americanism Commission, The American Legion, National headquarters, 777 N. Meridian street, Indianapolis, Ind.

The rules, for the most part, are practically the same as they were in 1930. This year, for the first time, however, 15 players may be enrolled on any team. In all previous years the total enrollment of teams has been restricted to not more than 14 players. The name, monogram or other designation of persons or organizations sponsoring teams, is permitted this year on the sleeve or back of the uniform shirt in letters not over two inches in size. Last year the name was not permitted except on the sleeve of the shirt.

Rule 3 has been changed to read:

NETTIE and NUTTY *Broadcasting For*

STEFFEN AUTO SUPPLY
15-17 N. Second St. Phone H. P. 350

"Each player must be a bona fide resident of the community served by the post sponsoring the team in which he enrolls." Last year the rule said that each player must be a bona fide resident "of the community represented by the team in which he enrolls." A slight change has been made in Rule 4 to the effect that where a certified copy of the birth certificate is not available, "then a certified copy of the baptismal certificate or player's school record age" should be attached to the certificate of entry.

Highwood City Licenses Are Due on April First

Because the Highwood police department wish to get all the city license purchase records in before the spring election, April 1 is the date at which all licenses are due and must be in.

Motorists who have failed to get their new city licenses should do so at once if they would avoid embarrassment. The police department will start a drive in the near future to round up all offenders who have failed to make their purchases.

Records at the Highwood city hall show that 80 city licenses for passenger cars and trucks have been sold. Most of the licenses given out have been for passenger cars.

In 1930 a total of 560 passenger car licenses were sold with 73 truck licenses being issued.

Assistant State's Attorney S. H. Block of Waukegan, for more than eight years the first assistant to State's Attorney A. V. Smith, is to resign his office and give full time to his law practice, it is reported.
