

# RIDE for HEALTH

Typical Three-Gaited Horse

At Drakewood Farm we specialize exclusively in the Three- and Five-Gaited Saddle Bred Horse.

Typical Five-Gaited Saddle Horse

Our horses are purchased direct from the breeders in Missouri, Kentucky and Tennessee, being carefully selected for conformation, style, soundness and good disposition.

We are particularly interested in the development of horses for use by novice riders and special emphasis is given to the training and improvement of our horses for park and road use.

In addition to the ordinary training in gaits, which the average saddle horse receives, every one of our horses is put into regular work and taught to work well with other horses in party, on the road, across country, on the bridle path, etc.

Our horses are always in good, hard condition and do not need to be gradually hardened up by the purchaser.

We have on hand at all times a generous selection of Three- and Five-Gaited Saddle Horses and can usually supply a horse of the size, quality, weight and disposition desired.

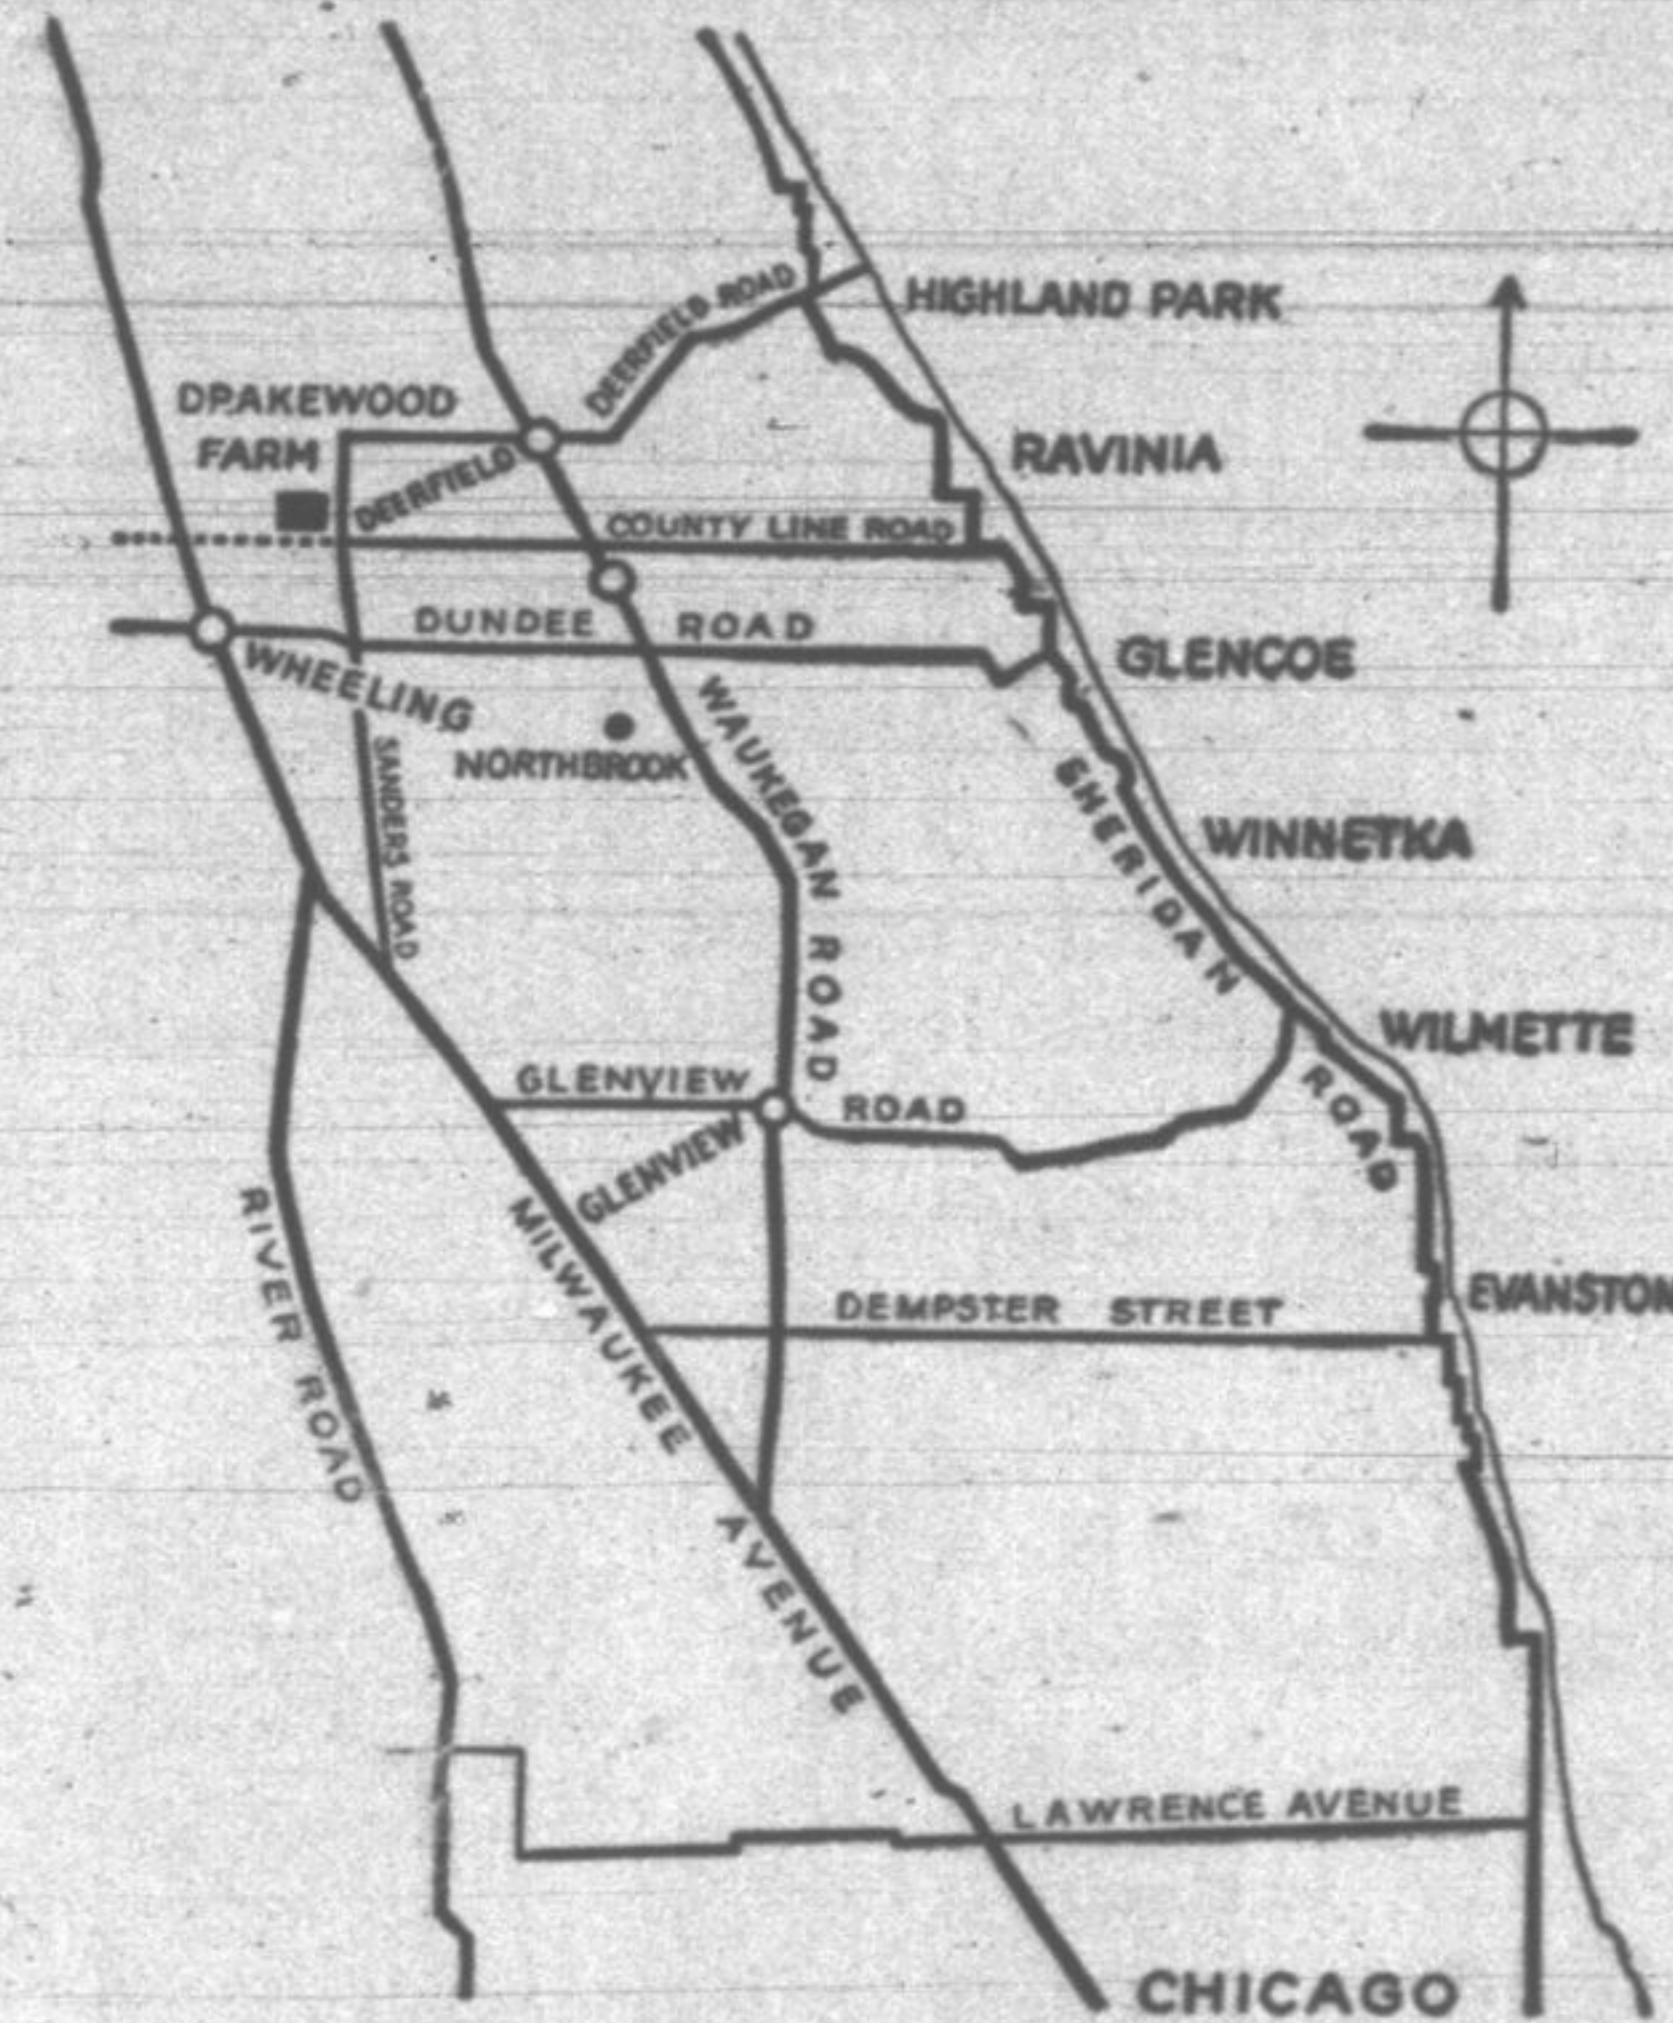

We guarantee every horse to be exactly as represented by us. Horses may be purchased subject to trial if desired.

Visitors are welcome and invited to inspect the horses and stables.

Our prices, quality considered, are usually much lower as we have the advantages and economy of stabling in the country.

The training division of our stables is in the charge of a man with a lifetime experience in the training and handling of saddle horses and whose basic interest is training and schooling for pleasure use.
