

Benjamin F. Lewis

VOTE!

Your Vote May Decide

Whenever the good citizens of any community become sufficiently interested in the welfare of their community, it is only when people stay home and let "George" vote for them that those who are elected.

Enough citizens of Highland Park have already expressed their confidence in the present administration by providing . . . they ALL VOTE.

This is not an election of personalities but of principles. It is only good business which has given you a good, sound business administration.

An administration which took up its work when the city was considerably in arrears.

An administration which has put the affairs of the City in a position where it is possible to do better.

We urge that you put back in office those men who have brought about the present work which they have started.

But whatever you do, remember that YOUR vote may decide the issue. W

You are cordially invited to meet these Candidates

SATURDAY NIGHT
at 8:00 o'clock
WITTEN HALL

Benjamin F. Lewis William Reay

Within the past ten days 1061 Highland Park citizens signed a petition and urging its continuation. It was our intention to run these names already in type.

However, believing that the best interests of our old established friends would be served by printing these names, we have decided to pass up what might be a big scoop.

We still believe that the spirit of neighborliness in our home town is still alive.

We want to thank these 1061 friends who have expressed in a concrete way their confidence in us. We shall do our best to merit a continuance of this confidence.

Julius Zimmer

A Word of Warning

In any political campaign numerous rumors are constantly being circulated. We have an answer for you.

These rumors when circulated during the last few days of a campaign are especially dangerous. We have decided to answer them and frankly answer them.

We have been candidates for re-election for the past seven weeks. During this time our incompetence has been openly voiced, nor have we resorted to any such policies.

Possibly false accusations will reach you within the next few days. We ask you to ask yourself the question, why, if this is true, was it not held until this time?

Vote YES for Civil Service for Police

This advertisement has been paid for by a large group of citizens in a continuation of the present City Administration.
