No More Delivery of Mail by Carrier on Saturday Afternoons

Post Office Bulletin—Important notice to the patrons of Highland Park post office:

In order to comply with the 44-hour week working law for clerks and carriers in the postal service, there will be no more Saturday afternoon delivery of mail by carrier. Street letter boxes will be collected according to the time stated on each box, and mail dispatch, office will be open as heretofore. Special deliveries will be delivered when received, no other changes made except one morning delivery on Saturdays.

More care in addressing mail should be used by mailers:

Because of the increasing amount of mail insufficiently, incorrectly, and illegibly addressed, this notice is given as a caution to mailers to exercise greater care in this particular.

During the year 1929 there were 300,000,000 pieces of such mail deposited in the post offices of the country, of which about 20,000,000 pieces reached the Dead Letter Office and in this dead letter mail thus poorly or insufficiently addressed were found more than \$130,000 in cash.

In preparing any matter for mailing, the following directions should be observed:

1. Print or write legibly the complete post office, state, street and number. In lieu of street and number the address may be a post office box or a rural route. In any event write the most complete address available.

2. Avoid abbreviations which may be confusing or misleading, such as "Cal.," often mistaken for "Col.," "Miss.," often mistaken for "Minn.," or "Mass.," "Va.," often mistaken for "Pa.," etc.

3. The sender should write or print his name and address in the upper left corner.

4. If a complete address is not obtainable, the best address available should be used, with any descriptive words which will aid in delivery, such as "merchant," "clerk," "Mechanic," "teacher," or in care of some person or concern.

5. If the addressee is a "transient," indicate that fact by the words "General Delivery" or "Transient."

6. In short, affix an address which will enable the postal clerks and carriers readily to deliver the mail.

Hugo L. Schneider, postmaster.

Bannockburn Planning to Erect School Soon

Bannockburn, boasted of by its 200 residents as "The North Shore's newest and smallest village," is laying plans for its own grade school, to be built and ready for occupancy by September.

No definite site has been selected as yet, according to Harold W. Norman, a Chicago attorney and member of the school board. Several locations are under consideration, however, and a decision is expected within a few weeks.

Only two rooms will be built this year, although provision will be made for adequate expansion as population of the village increases. Cost of the building, which will be planned to conform with the residential character of the community, is estimated at \$16,000.
