make no better investment of their funds. They are firm believers in the stronger and better churches. They deem it a privilege to give this gift and have expressed the sincere hope that the local campaign will go over with great success and that it may be accomplished in the very near future.

Appreciation Expressed

A large representation of the membership of the church were present at the Wednesday evening meeting. It is impossible to describe the enthusiasm and the joy that prevailed when the pastor made his announcement. The congregation gave many expressions of appreciation to their unknown friends and sincerely thanked the pastor for the part that he has played in helping to bring about this extraordinary offer.

The congregation went on record with a unanimous vote to accept the proposal of this family. They took immediate steps to put on a campaign for the needed funds. The members of the church are fully aware of the fact that it will not be an easy matter to raise \$25,000.00 in cash at the present time. They realize however, that this church has made a very large number of friends during the past number of years. It is believed that the interest of these friends has grown sufficiently that they will do all that is possible to help the congregation attain this wonderful achievement.

It will be of keen interest to the community in general to know that the \$25,000.00 to be raised locally, combined with the gift of the donors, will liquidate all obligations resting on the church at the present time.
