Does Your Automobile Insurance Policy Say What You Think It Does?

If your car should be burned or stolen, will your insurance company pay you the amount stated in the policy? The amount named in the policy is a valuation used to determine the cost of the insurance, the rate for fire and theft insurance being a certain price per hundred dollars of valuation.

The policy says that in the event of a total loss you will receive an amount not to exceed the actual loss sustained, the settlement to be agreed upon by you and the adjuster for the insurance company. This is the policy known as the "non valued" form.

Then there is the "valued form" policy. Under the terms of this policy you are paid the face value of the policy, the amount on which you have paid premium.

The Inter-Insurance Exchange of the Chicago Motor Club issues a VALUED FORM POLICY, which covers you anywhere in the United States or Canada.

Other services of the club are: Free mechanical first aid and towing service, home district service, accident prevention work, travel service, and bail bond service.

Write or call for further information. Sixty-two branches: 33 downstate; 29 in Cook County. Dues per year \$10.00. Enrollment fee (first year only) \$5.00.
