"Milk for health!"

Speaking of milk, Dr. Mary Swartz Rose of Columbia University, New York, says "No other food can so well serve as the foundation of an adequate diet, because no other reinforces it at so many points. It is for this reason that the term 'protective food' is aptly applied to milk."

And Dr. Lydia Roberts of the University of Chicago says "One of the most serious failings in children's diets is the insufficient use of milk. Milk is the only dependable source of calcium which is needed in large amounts for the growth of teeth and bones."

Give your family Bowman's Milk and you give them Nature's finest food in its purest, most delicious form. The superior flavor of Bowman's Milk is due to the extra care we take in brinking it from farm to you. Try Bowman's Milk and see how good it really is. Get a bottle tomorrow from the courteous Bowman milkman who passes your door.
