BRITISH RYDER CUP TEAM IN N. S. OPEN

Famous Golfers from England Expected to Participate in Event Here

The intense heat of the past week has materially slowed up the play at Sunset Valley Golf course, but the preparations for the North Shore Open continue without interruption, and barring some unforeseen accident, the course should be in excellent condition for the major event of the year.

British Ryder Team

The officers of the club now have the assurance of Mr. Harlow that the British Ryder cup team will enter the tournament. This is a source of great satisfaction, and should be a decided drawing card on the 6th. It is doubtful if this team will ever again make its appearance in this locality. Among those who will no doubt be on this team are Archie Compston, W. H. Davis, Sid Esterbrook and others.

Among the other pros who will be present to bring up the total entry of more than 150 are Al Espinosa, Jock Hutchison, George Smith, Laurie Ayton, Eddie Loos, Abe Espinosa.

From the enthusiasm displayed by the pros, the event will be a hotly contested affair, and will give the spectators something to interest them. On the list of players entered are men from all sections of the country, California, Texas, and from the South and East.

Argentine Team Goes Home

The officers of the club originally planned to secure the Argentine team, and were disappointed only through the non-appearance of these golfers

The Highland Park firemen and life guards started work on him and after two hours and ten minutes gave him up. He was brought to Kelly's undertaking room.

Rotarians Learn About Busy Bees From Noted Apiarist in Good Talk

Dr. Bruce Lineburg, professor of biology in Lake Forest college and noted apiarist, was the principal speaker at the weekly luncheon and business session of the Highland Park Rotary club, Monday noon, in the Moraine hotel.

Dr. Lineburg is an authority on bee culture and his talk was on that subject, and it is safe to say that the Rotarians present learned more about the busy bee in the half-hour that Dr. Lineburg talked to them than they had imagined in all their previous existence, for if there is anything that Bruce Lineburg knows, it's bees, and how!

E. C. Schweitzer was program chairman for the day and introduced the speaker, whose talk was thoroughly enjoyed by those present.
