# ADVERTISING

*The Business Accelerator-*

**READ!**

*Dr. Julius Klein,  
Assistant Secretary of Commerce,  
says:—*

"Judiciously planned advertising is one of the most effective instruments with which to combat commercial depression. It is a business accelerator of proved power. It keeps goods moving, it inspires confidence, it creates good will.

But, in order to accomplish the beneficent results, advertising must strike the public consciousness unremittingly. Any abrupt halt — any extended absence of the advertiser's message—may be disastrous.

I am profoundly convinced, therefore, that any reduction of advertising in times of depression, with the idea of cutting down expense, is a mistaken and short-sighted policy, likely to defeat its ostensible purpose."

**We extend an invitation to the business men of Highland Park and vicinity to call and take advantage of our splendid advertising material expertly planned for all lines of business.**
