

Not A
WHISPER
of Sound

*Not One
Thing to
Wear Out*

Be **THRIFTY** — own an Electrolux!

The purchase of an automatic refrigerator is a long time investment. Unlike smaller items that may be purchased without careful investigation, an automatic refrigerator should be considered from all angles. Hasty purchase may bring you disappointment. So it will pay you to give thoughtful consideration to the many advantages offered by Electrolux, the GAS Refrigerator.

Electrolux is *different* from all other automatic refrigerators. This difference brings you matchless refrigeration service.

No other automatic refrigerator offers absolutely noiseless operation. Electrolux does! Not a sound *ever* comes from its handsome, gleaming cabinet . . . for there

is no machinery in Electrolux to produce noise. It makes steady, uninterrupted cold . . . without alternate starting and stopping.

Cold is produced in Electrolux by a tiny gas flame and a trickle of water. They circulate the ammonia refrigerant, which is harmless and only slightly stronger than household ammonia. This is by far the simplest and surest automatic refrigerator unit.

It is evident, with these facts before you, that Electrolux has no machinery to wear out, or cause noise at any time.

With Electrolux you have advantages found in it alone! Let us give you all the facts. Just visit our store or telephone.

EASY TERMS

You can own an Electrolux by paying only a few dollars down. The balance of its cost then may be paid in 18 equal monthly installments with your gas service bills. This convenient purchase plan lets you begin *at once* the savings in food and money possible with Electrolux.
