

A RESPONSIBILITY

The investment of funds after they have been earned and saved always proves to be a responsibility.

To the cautious investor we offer first — our savings department, where funds are always available, and where 3% interest is earned.

We further offer our real estate and bond department, where our offerings may be checked and appraised.

To assist and advise you concerning this responsibility is our pleasure and our duty.

Do You Wait— and then wait some more?

When you want hot water for baths, dishes, laundry, cleaning or any of a number of uses, must you wait while it heats in a tea kettle or a coal heater? There is little pleasure in using hot water when delays and inconvenience are necessary to secure it. But there is unlimited comfort and joy in having hot water INSTANTLY — in any quantity needed. Whether you want a steady, refreshing stream for a shower bath, several gallons for a tub bath, a pan full for dishes, or any other amount, an AUTOMATIC STORAGE GAS WATER HEATER will supply it the moment you turn a hot water faucet. No waiting or delays. No fire tending. No tea kettle lugging. Buy your gas water heater NOW. If you trade in your old water heating equipment, no down payment will be required. Come in or telephone for further information.
