WHO LIKES TO SHOVEL COAL?

**BURN
 OIL**
 CLEAN,
 ECONOMICAL

Relief from drudgery comes with modern mechanical conveniences, and surely one of the greatest of these is the Oil Burner. It frees its owners of ash hauling, of coal heaving, of the petty nuisance of forever nursing the furnace. It gives carefree, even warmth, regardless of the outdoor temperature, without a moment's thought from any one. It is economical. It keeps the house cleaner, and it maintains an even heat.

“Proper, Automatic Heat is an Aid to Healthful Living Conditions in the Home.”

Dr. Herman Bundesen, President of the American Public Health Association and for over five years health commissioner of Chicago, one of the most famous authorities on health in America, made the above statement and adds:

“Overheating and too little moisture in the air of the home favor disease of the nose, throat and lungs and are factors in the increase of pneumonia and tuberculosis noted during the winter months.”
