WAGE RULING MAY AFFECT CONTRACTS

Two Lake Co. Road Jobs Likely to Be Delayed by Court Action, Belief

Two Lake county road projects are in question as result of the ruling of Circuit Judge Charles G. Briggie of Sangamon Co., and the opinion on the wage scale clause in contracts given by Attorney General Oscar Carlstrom, it is reported.

The two are the Diamond Lake-Half Day road, for which bids are to be received October 16, and the contract awarded to the E. A. Meyer company of Highland Park two weeks ago.

R. M. Lobdell, county highway superintendent, and M. E. Amstutz, civil engineer of the highway office communicated with the office of Attorney General Carlstrom last night relative to the legal phases of the contracts.

They were informed that nothing definite about the situation will be available until the supreme court rules in the case.

To Rush Test Case

If possible, they were informed, the test case will be rushed through to the supreme court, and it is possible that it will be possible to get a decision during the October term.

The case will take precedence over other matters because of the fact that it is holding up a large amount of road construction work in the state.

The effect on the local work will be only technical since all contractors have been paying the union scale on construction work, and the scale is the same as that provided by law.

Should the supreme court hold the contracts to be invalid, the contractors may obtain judgments against the county for the work they have performed.

May Be Readvertised

In cases in which the work has not been done, the jobs may be re-advertised, and the contracts awarded without the labor price clause.

The Diamond Lake-Half Day road is 4.4 miles in length. Specifications call for pavement of 20 feet, with cement to be furnished by the county.

The scale provided in the offering of contract is as follows:

Laborers, 97½ cents an hour; teamsters and truck drivers, \$1; carpenters, skilled mechanics and machinists, \$1.67½.
