**SYNOPSIS OF LECTURE
ON CHRISTIAN SCIENCE**

(Continued from page 8)

pretation of the Bible, especially the words and works of the Master, and for her demonstration of the truth of his teaching. In the face of the so-called higher criticism, the doubt respecting the correctness of much Scripture teaching and the denial of the possibility of obeying Christ Jesus' commands, Mrs. Eddy's proof that the Bible is true stands out as the greatest, most significant achievement of this age, for thereby the truth of Christianity and the rightness of its basis is scientifically established. This has never been done before.

To Christian Scientists Mrs. Eddy is a living example of the triumph of faith in God, a faith deep and vital because rooted in spiritual experience. She knew God aright. She looked to divine intelligence and proved that God is Mind. She was governed by spiritual law and proved that God is Principle. She looked to God for health and proved Him to be Life. She loved all mankind and proved that God is Love. She gave her all for the "pearl of great price," the knowledge of God, and offered it to all the world.

According to a prominent New York scientist the Piltdown man marks the dawn of the human race. And a lot of local prognosticators are willing to predict that the present depression marks the sunset
