

CHANGES MADE IN FIELD HOUSE PLANS

New plans for Deerfield's field house and stadium are being prepared by the firm of Perkins, Chaten, and Hammond, architects for the proposed structure.

The first plans were disapproved by the school board because they entailed more expense than the school board has planned for. These

plans called for a structure three hundred feet long, and a seating capacity of five thousand. A structure of this size would cost more than \$65,000, the sum set aside for this purpose.

An estimated length of two hundred and thirty-six feet, and a seating capacity of three thousand will be made in the revised stadium plans.

To Contain Track

The field house, however, will still have a cinder track, a dirt floor, and space for shot-putting, pole-vaulting, and broad-jumping.

In the larger building, on the west, there will be a mezzanine floor containing showers and dressing rooms. On the second floor there will be two rooms which will be used in the future by the vocational department.

HOLD VISITING DAY DURING NATIONAL EDUCATION WEEK

Dinner Served at 6 o'clock in the Lunchroom; Assembly Follows

Visiting day will be held at Deerfield-Shields on November 12 during National Education Week, and school will be dismissed at 12:30 o'clock. Lunch in the cafeteria will not be served.

In the evening at 6 o'clock there will be a dinner in the cafeteria which students may attend with their parents, but they are asked not to remain afterwards.

Following the dinner there will be an assembly presided over by Mrs. Gaidzik, president of the P. T. A., with Mr. Sandwick as the speaker.

The band, under the direction of Mr. Finch, will play "Men of Ohio," a march by Fillmore, and "Urbana Overture," by Roberts. "Air and Variations," a violin duet by Dancla, will be played by Margaret Esmiz and Virginia Parenti. "Alla Marcia," by Wolfermann, will be presented by Virginia Parenti, Margaret Esmiz, and Ruth Pardee.

During conference hour, the teachers will be in their rooms, and the members of the board of education will be in the English club room.

Senior boys will act as guides for the parents, and as ushers at the assembly on Friday when Charles E. Holgren, first mate of the Byrd expedition, will speak.

Waukegan Legion Post Starts Work on Own Building

With members of the building committee of Homer Dahringer Post of the American Legion, Waukegan, members of the Waukegan Park Board and representatives of the Legion Auxiliary in attendance, Post Commander Ralph S. Nelsen and Chairman Victor O. Woertz of the post building committee wielded a gold plated shovel at 10 o'clock last week turning over the first spadeful of sod for the construction of the American Legion Memorial building.

Flash lights boomed through the dark, rain-filled air as the two representatives of the 651 members of the local Legion post started the most momentous undertaking since the signing of the Armistice 13 years ago gave birth to the organization of World War veterans.

Ray Borregard, the contractor who is to build the home, started actual work as soon as the formalities of ground breaking had been completed. The contract calls for completion in 90 work days. The cost is approximately \$35,000.

The Legion home is to be located in park property at the corner of West and Washington streets and is to be a beautiful memorial to the World war dead. Built of Indiana lime stone in a modern, dignified design, the Legion building will be one of the show places of the city. It will include lodge hall, auditorium, committee rooms, lounges and quarters for the Legion Auxiliary and the boy scouts.

"Get This!"

Says the Reporter . . .

Day or night we are ready to speed your voice to a neighboring village or a far-off corner of the world—always at a moderate cost.

Then follows a rapid, detailed story—full of facts—that the man on the other end of the wire must "get" accurately. The telephone has to be fast and clear to serve your newspaper. And it is! Ask any newspaper man what he'd do without it.

What the telephone does for the press, it can do for your business. Sell your out-of-town customers by telephone. A telephone call "gets" your sales story across to the customer and brings results! The cost is small, wherever you call!
