One Match Will
Flood the Room
With Heat

From discomfort to comfort is but one step if you have a gas fireplace heater in your home to drive out chill on these fall days. You light one match and *instantly* a stream of clean, healthful heat pours from your fireplace. You control this heat with the utmost ease . . . have heat at the temperature you wish. Turn it on full, at first, to warm the room completely. Then turn it down and be thoroughly comfortable with a steady, even, cheery glow that will burn as long as you want . . . that can be shut off in a single movement when the need for heat is past. With a gas fireplace heater you have no fuel to carry . . . no ashes to remove . . . no grime to clean up. On chilly days this fall . . . and on many other days during the year . . . enjoy the delightful, economical comfort a gas fireplace heater will bring to your home. Visit our store now, or telephone for further information without any obligation.

Out Goes Fall
Chill...In Comes
COMFORT
