Pi Delta Club Plan Nationality Party

The Pi Delta business girls' club is having another Nationality party, Thursday evening, November 19 at 6:30 o'clock. This time it will be a Chop Suey supper where they will adopt the customs of the Chinese people, both in habit and in food. A short talk will be given on China by the conductor of the last cruise, Hawaii to Paradise, Mrs. Harold G. Boltz.

There will be a booth where Chinese articles may be purchased suitable for gifts for bridge and Christmas. The money realized will be turned over to the club.

H. P. HEALTH BOARD

Weekly Bulletin

This is the first of a series of weekly articles to appear in the Press for the information of the people of Highland Park, regarding local and general health topics. It is hoped that, in this way, accurate information may be given regarding city and state health matters, and also that, with the fullest cooperation of the readers, the prevalence of contagious diseases may be reduced in this community.

For the past three months we have had few cases of communicable diseases reported, the total being about 30, consisting of measles, whooping cough, and chicken pox.

As winter approaches, we will have to anticipate an increase in certain of the diseases which are particularly prevalent at that time. These are diphtheria, scarlet fever, pneumonia, influenza, and measles.

Diphtheria usually reaches the highest level during December or January, and continues through the winter months. This disease is not the threat it formerly was, because many children are being immunized as a preventive measure. All threats during this period should be promptly cared for, as early treatment is essential for a cure in diphtheria.

Scarlet fever usually reaches its highest point during February and March. As with diphtheria, there is an antitoxin for treating cases and a toxin for immunizing people against it, but these have not been perfected to the same degree as the curative and preventive measures in diphtheria. They have been used to great advantage, however, in institutions and localities where a scarlet fever epidemic has developed.

Anticipating the winter infectious, and taking advantage of the available methods of control offers the only practicable hope for converting winter into a healthful, instead of an unhealthful season.

Ravinia Players Make Progress in "Holiday" Rehearsal

With eleven young Thespians rehearsing concentratedly in the living room of the home of one of the members, and fifteen other young people in the dining room planning sets, lighting, properties, and the business campaign for the show, work on "Holiday" is rapidly progressing. It is most encouraging to the eyes of an onlooker to note the enthusiasm and zeal shown by all the members of the Ravinia Players in the production of their play.

Two Different Views

This three-act comedy by Philip Barry to be presented December 18 by the Players, is one of the author's latest and the theme of the story centers around two extremely different views of a successful life. The first attitude is a very sane and conventional one, namely that of continuously struggle to become a success financially. Early leisure and enjoyment in life, the other view, causes much antagonism between certain characters in the play. "Holiday" is a brilliant arresting character study of a wealthy New York family confronted by a poor young man in quest of happiness other than riches. It is so typical of our modern life and difficulties, that the onlooker does not feel that he is merely a part of an audience, but rather one of the members of the cast having his say-so in this question of success.

Past Officers Will Put On Work Nov. 18

Worthy Matron's and Worthy Patron's night will be observed next Wednesday evening, Nov. 18 at Campbell Chapter No. 712. This should be an interesting meeting and all members are urged to attend. Show your appreciation of your past officers by attending.

A very delightful feature was enjoyed last Wednesday evening following the business meeting of the chapter, when the girls drill team from Kenosha chapter, O. E. S., put on a drill in full regalia. Their work was performed in a most soldierly manner and all who saw it spoke most favorably of it.

High Scores Made in Bowling League

The Highland Park Beverages opened the fourth week of the Business Men's Bowling league at the Majestic bowling alleys by taking two out of three games from Picchietti Bros. last night. The margin of pins for the three games being very small, 2584 to 2458. The feature of this series was that A. Picchietti and Joe Ori both bowled fine games of 201 in the third of the series.

In the other round of the evening Nelson's Garage won two games and lost one to the Reliable Laundry, the total score being 2483 to 2372. Driest turned in a score of 236 in the second game for Nelson's.

Ray Chambers won the high weekly prize by a score of 246, being only one pin more than the score made by Hank Witten last week.

LEAGUE OF WOMEN VOTERS CONVENTION

Features of Meeting to Be Held in Chicago Nov. 18 to 21; Current Issues

In line with the special session of the Illinois legislature just opened, the Illinois League of Women Voters at its convention this month is going to devote special time to the question of taxes and tax machinery. The convention dates are November 18, 19, 20, and 21, headquarters at the Windemere hotel, 1642 East 56th street, Chicago.

Besides the usual convention business the members and delegates are going to participate in an "Institute on Economics for Citizens," to be conducted for them by the University of Chicago, in the Social Science building. In the opening session of this Institute, November 19, at 10:30 a.m., Mr. S. E. Leland, professor of economics at the university, will discuss the report of the executive committee to the Governor's Tax Conference which has just been published. He will give special emphasis to the recommendations for change in the assessment machinery.

Mrs. Ralph B. Treadway of Glen Ellyn, president of the Illinois League of Women Voters, finds the tax report most gratifying, "I am delighted," says Mrs. Treadway, "with the scope and details of the report of the executive committee of the Governor's Conference. It is to be hoped that the particular provisions as recommended, to reorgan-

Health Talk Tonight at Legion Meeting

The regular meeting of the Dumaresq-Spencer post of the American Legion is being held this evening in the Elks hall. Following a short business session Mr. George A. O'Brien will lecture on the wonderful power of natural food and its relation to health, and will give the new and simple method of retaining the important vital elements in food.

This lecture is especially intended for the father and mothers of growing children.

A light plate lunch of delicious and wholesome food, cooked without water or grease will be served free.

This is not a sales talk, but one of educational value. All members of the Elks club and their wives and friends are invited to attend.

Membership Drive

The membership drive is still in progress and although many new members have been signed up there are no doubt many more who are eligible. New members are initiated at the second meeting of each month.

Drum and Bugle Corps

The leader of the Drum and Bugle Corps is anxious to make this aggregation one of the best in this district and it is hoped that there will be some more new members sign up. To make it a success, the cooperation of all members is urged. Don't forget the next meeting.
