COUNTY CHAIRMAN HAS CONFIDENCE

(Continued from page 5)

Central committee, I have been in close contact with the people of Lake county and am confident that Lake county, the banner Republican county of the State of Illinois will remain conservative and steady in spite of the upheaval in politics throughout the world according to business and political leaders. The recent elections in Great Britain, where a certain element cried for a change in Government showed plainly that the people, even in a country where conditions are vastly worse than they are here remained steady and refused to change horses in the middle of the stream.

The Democratic party naturally will attempt to secure the reins of Government upon the assumption that the Republicans have failed.

However, that was the same story

that a certain element spread broadcast throughout England, and in spite of the vicious campaign the people showed good judgment in continuing the present leaders in power.

And when one surveys the situation in England with its dole and tremendous unemployment problem, which by the way has been in effect much longer than in the United States, is it any wonder that leaders feel that the intelligence of the American people and especially the type of citizens in Lake county will stand by and uphold the hands of those who are doing everything in their power to overcome a condition that certainly is no fault of the party in power. . . . It is a world economic condition and the democrats have no panacea for the trouble other than stating that they should be put into power because in their judgment the present party has done nothing about it.

Why Not Now

But, is it not reasonable to assume that the present democratic leaders in Washington and in this state,

in the House and Senate will be there also when and if the Democrats should gain control? And if they are there then and expect to at that time bring about prosperity, why don't some of those leaders of the Democratic party offer at this time some panacea for our troubled conditions instead of waiting for the Democrats to gain control?

The reason is plain, that they have nothing to offer but destructive criticism of those in power, but the people will without question ask them. "What will you do about the problems concerning the country and state?" "What have you to offer except criticism?" The Democratic leaders say they can change things when they get in power. Why don't the leaders point out the way now? Why wait?

Why Wait?

Why should the Democratic leaders suffer you for another year to wait until they are elected? And then another year to adjust themselves? If they have a formula let them expose it now and help a situa-

tion that is not the fault of Democrats or Republicans?

Lake Co. Rep. Central Com. Max Przyborski, Chairman,

State Cops Start War on "One-Eyed" Autos

Clearing Illinois highways of what he terms is one of the most dangerous road hazards — "one-eyed" automobiles—will be the object of a state highway police campaign, Walter L. Moody, chief of the state highway police, said here today.

The first step of the campaign, Moody said, will be to warn drivers of these cars. If the warnings are not heeded, he said, arrests will follow.

Motorists warned to have their lights repaired will be required to report back for further inspection. Failure to report for the inspection will make the driver subject to arrest.
