## Benefit of 4-H Club Far Reaching; Members In U. S. Total 834,000

While the north shore cannot be said to be primarily interested in things agricultural, its residents will heartily subscribe to the far-reaching benefits of the National 4-H Boys and Girls Agricultural clubs now boasting 834,000 members scattered in every state in the Union.

Launched fourteen years ago, with a membership of eleven ambitious farm boys, the club has spread into every rural section in the country with a rapidity that is nothing short of amazing.

We urbanites, occupied with our own affairs, are prone to pay too little attention to this significant activity which has as its primary purpose the improvement of farm stock and products. Boys and girls alike share in the awards given out annually by Thomas E. Wilson, president of Wilson and company, who each year entertains from 1,500 to 2,000 happy and healthy farm boys and girls at a big turkey banquet and theater party, in addition to passing out gold medals to the county champion 4-H club member in every county in the United States. He has just recently announced the creation of a Thomas E. Wilson Fellowship to determine by scientific measurement the value of 4-H club experience and training.

Rear Admiral Richard E. Byrd came to Chicago this season to assist Mr. Wilson in making the 4-H club presentations in conjunction with the International Live Stock show just recently held. What a treat for those fine youngsters!

This unquestionably successful endeavor to quicken and maintain interest in farming as a profession cannot fail to have far-reaching benefits for all, including those not directly interested in rural pursuits. Certainly, Mr. Wilson and his 4-H awards committee are, through their friends, the boys and girls, making a contribution to our nation, the great value of which is difficult to comprehend.
