THE NEW SPECIAL SEDAN

Again Chevrolet strikes a popular new note in motor car styling

Finer Fisher Bodies . . Striking new lines . . Distinctive new front-end appearance . . Attractive new colors . . Enriched interiors . . .

Chevrolet and Fisher designed the new Chevrolet Six to be the finest-looking automobile the low-price field has ever seen. Just how well they have succeeded is a matter Chevrolet leaves to your own good taste. You will find a new front-end appearance that is unusually imposing—a new radiator shell, new double tie-bar and other features plated in sparkling chromium. The long, massive hood is equipped with stylish new hood-ports (chrome-plated on all sport and de luxe models). An especially striking silhouette has been achieved by streamlining

the front pillars of the body. And all throughout the car, inside as well as out, you will observe a smart simplicity of design and a richness of appointment that suggest custom-car styling.

Moreover, Fisher craftsmen have added many new factors of strength, quietness, and durability to the wood-and-steel body construction. And greater vision has been provided for all occupants.

Be sure to see the new Chevrolet Six, with its marvelous new Fisher Bodies. Learn also about Chevrolet's many other thrilling new features, including the combination of Syncro-Mesh gear-shifting and Free Wheeling. Find out, for yourself, what makes the new Chevrolet, at its very low prices, the Great American Value for 1932.
