

Buy in Highland Park

"It's Patriotic to Buy in
Highland Park"

WE Americans are extremists — after a period of inflated prosperity during which we indulged in an extravagance of spending — an extravagance of buying — we've swung into an extravagance of economy. We've not only stopped buying the frills and furbelows of boom times — we've stopped buying the things we actually need.

Don't stint on the things you need! Today's Dollar has a greater buying power than its had in years. Use it! Put your dollars into circulation. It's patriotic to buy now! Buy 'til it helps! And BUY in Highland Park!
