

**Have Clean, Automatic Heat
with Your Present Heating Plant and a**

CONVERSION GAS BURNER

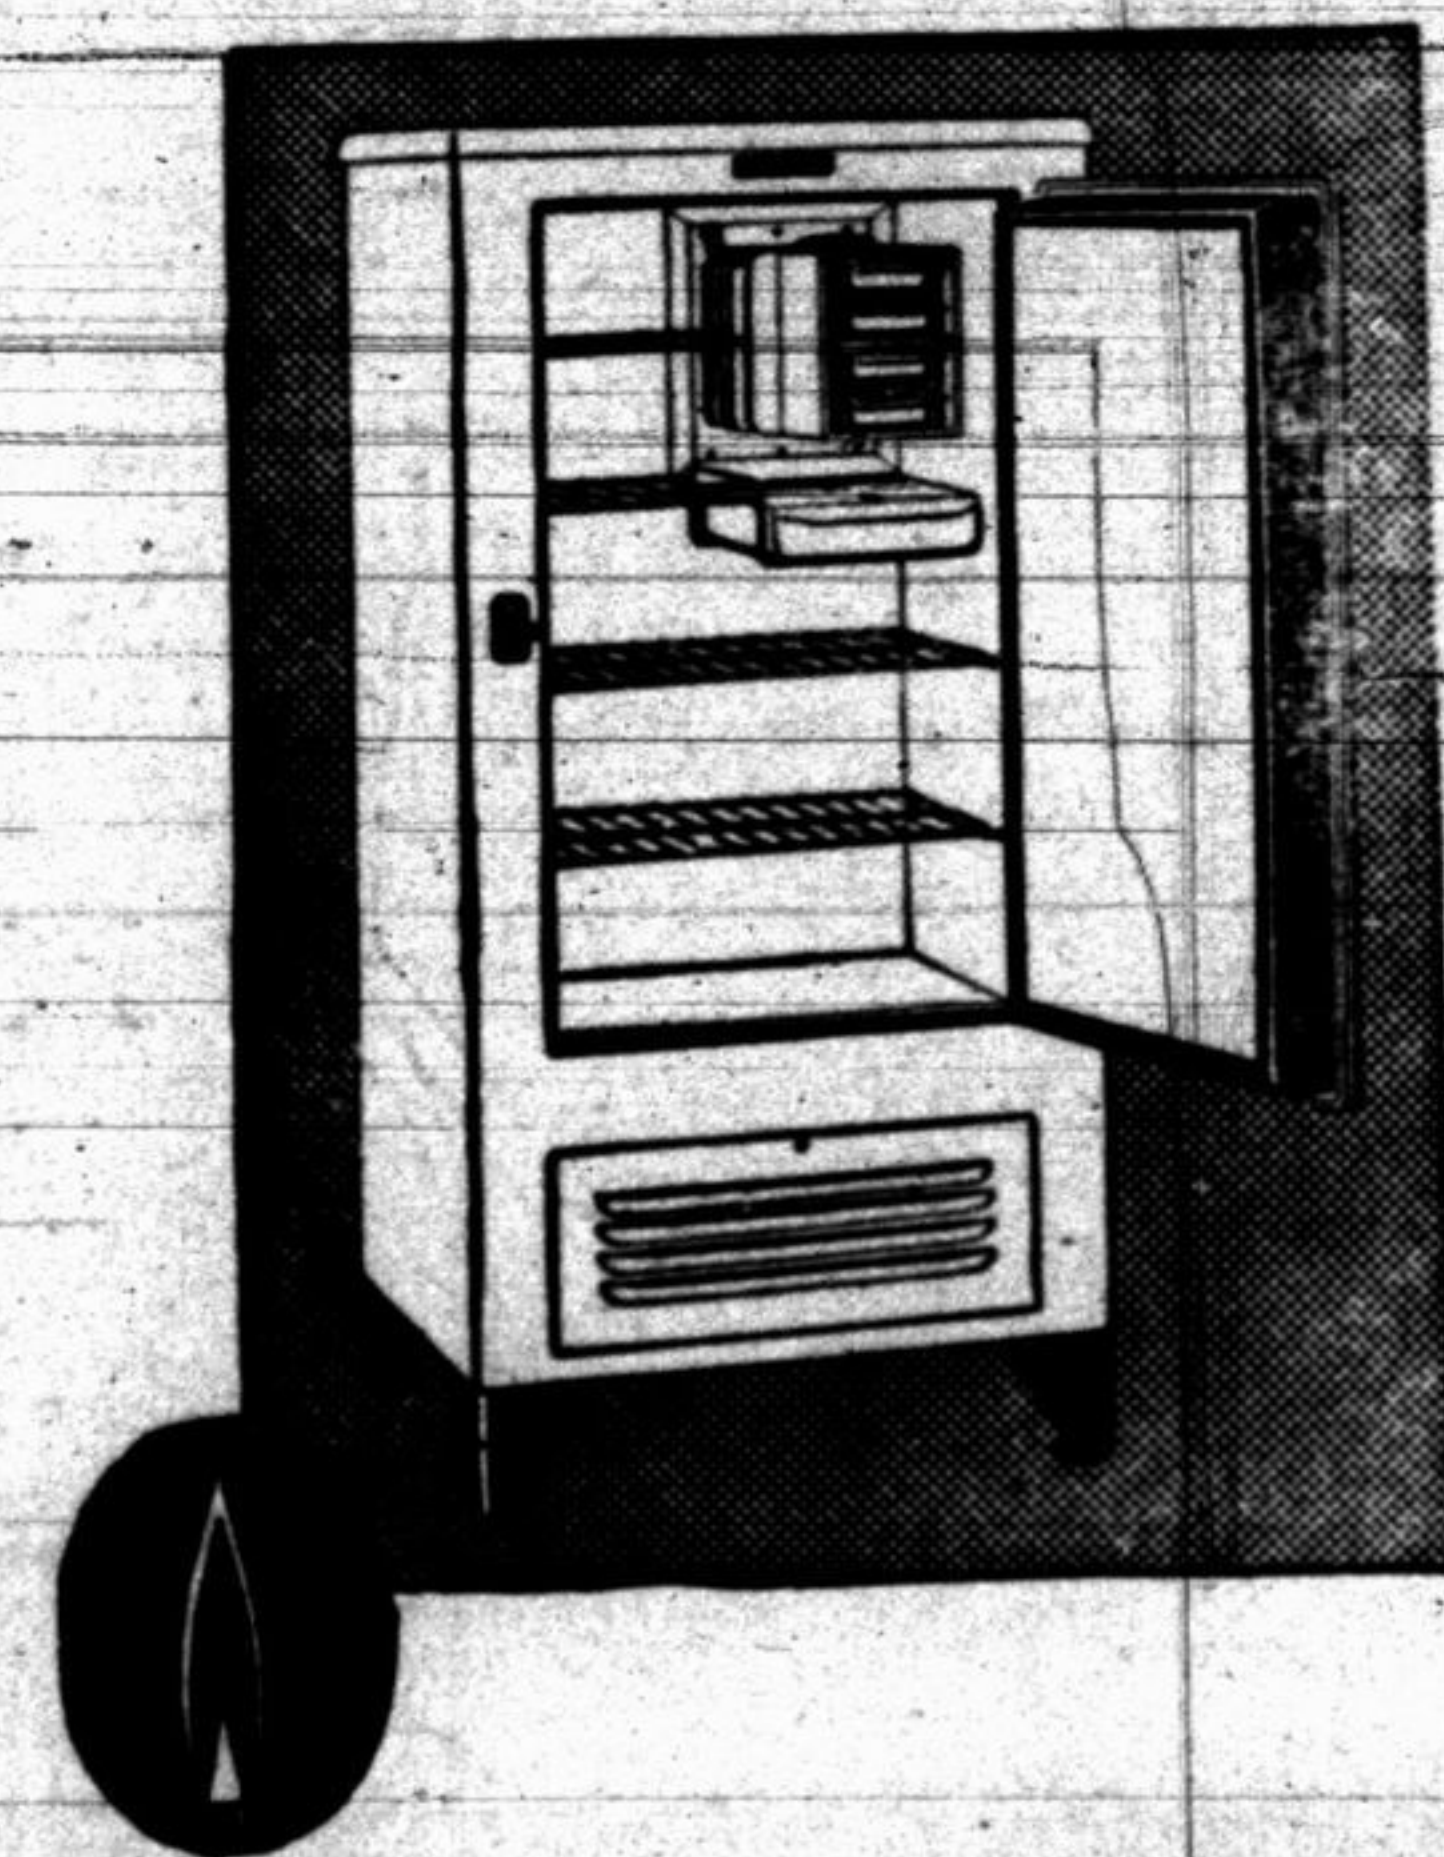

Add a Conversion GAS Burner to the heating plant you now are using and your heating will be made completely carefree and automatic. This addition will not be costly. The down payment also is moderate. And the payment for a Conversion GAS Burner may be spread over as long a period as 24 months. Use of an efficient Conversion GAS Burner brings perfect heating within your reach. A new gas heating rate, 10 percent less than the former special low house heating rate, reduces by a substantial amount the cost of heating with GAS. Without any obligation to you, ask us to prepare an accurate estimate that will show the cost of heating your home with GAS.

**The moderate cost of changing to GAS HEAT NOW
makes it possible for you to enjoy fully Automatic Heat
in your home. INQUIRE NOW!**
