IS YOUR COOKING IMPORTANT?

Most women consider cooking a skilled operation. And so it is! But highly skillful and ingenious methods are almost useless when an unsatisfactory cooking appliance outbalances all of the care and cleverness you use prior to the cooking process. A modern heat controlled **GAS RANGE** . . . that measures heat to exact degrees . . . helps prevent cooking failures. At the same time it gives you more leisure by freeing you from oven tending. The final step in food preparation is *cooking*. Use a heat controlled **GAS RANGE** and foods will always cook properly . . . perfectly.
