

Reversing the order of the county court in which Apostle C. F. Caldwell of Zion, was convicted of trespassing, the appellate court last week sent the case back to Lake county for another hearing.

Ten per cent reductions for all Libertyville municipal employes and a general cut in the pleasure car wheel tax from five to four dollars were voted by the village board last week.

Frank Kamin, one time employe of an Antioch bank, is to serve 15 to 20 years in the Wisconsin state prison at Waupun for his part in the robbery last May of the Meinhardt State bank in Burlington.

New Parlor-Buffer Car Service on N. S. Line; Convenient, Low-Priced

The proverbial high prices for dining and parlor car conveniences have been dealt a knockout blow by the Chicago, North Shore, and Milwaukee railroad—North Shore Line—with the announcement of inauguration of a new "parlor-buffer" car service introduced on limited trains operating between the hearts of Chicago, Kenosha, Racine, and Milwaukee on a high-speed schedule of one hour and 55 minutes between terminals.

A complete table d'hote meal—breakfast, luncheon or dinner—is served the traveler while seated in a comfortable plus upholstered chair, all for the sum of 50 cents! Further carrying out the novel idea, the passenger is charged for chair accommodations on a "pay only when not eating" plan.

The cars used in this new service are the regular de luxe diners of the road, which have been equipped with parlor-car chairs. Movable tables, which are attached to the chair arms during the meal and removed when the diner has finished, complete the picture. This equipment was "invented" in the North Shore Line shops and is the first of its kind to be used on American rail lines. The chairs may be faced in any direction, making it possible for a diner to view the scenery if he desires, or face a companion in comfortable tete-a-tete fashion.

Model Illinois City Reduces Pay Schedule and Also Lowers Taxes

Hoopeston, Ill., has no bonded indebtedness, a balance in the bank of \$25,000 is at interest. Nevertheless the city has decided to economize, in keeping with times.

The city council decreed salary cuts and economy on street lighting expenditures last week but trimmed taxes too.

The city wheel tax was cut from \$3 to \$1.50, the cigarette license fee of \$50 was cut in half. Lower water rates were promised, and Mayor E. H. Richcreek warned the public utilities companies that unless rates are in keeping with the low price era he would ask the council to establish a municipal light plant.

The mayor and aldermen work for \$2.50 a year—the mayor receiving 50 cents and the councilors 25 cents. But they don't collect. The checks have been framed as mementoes for more than a half century.

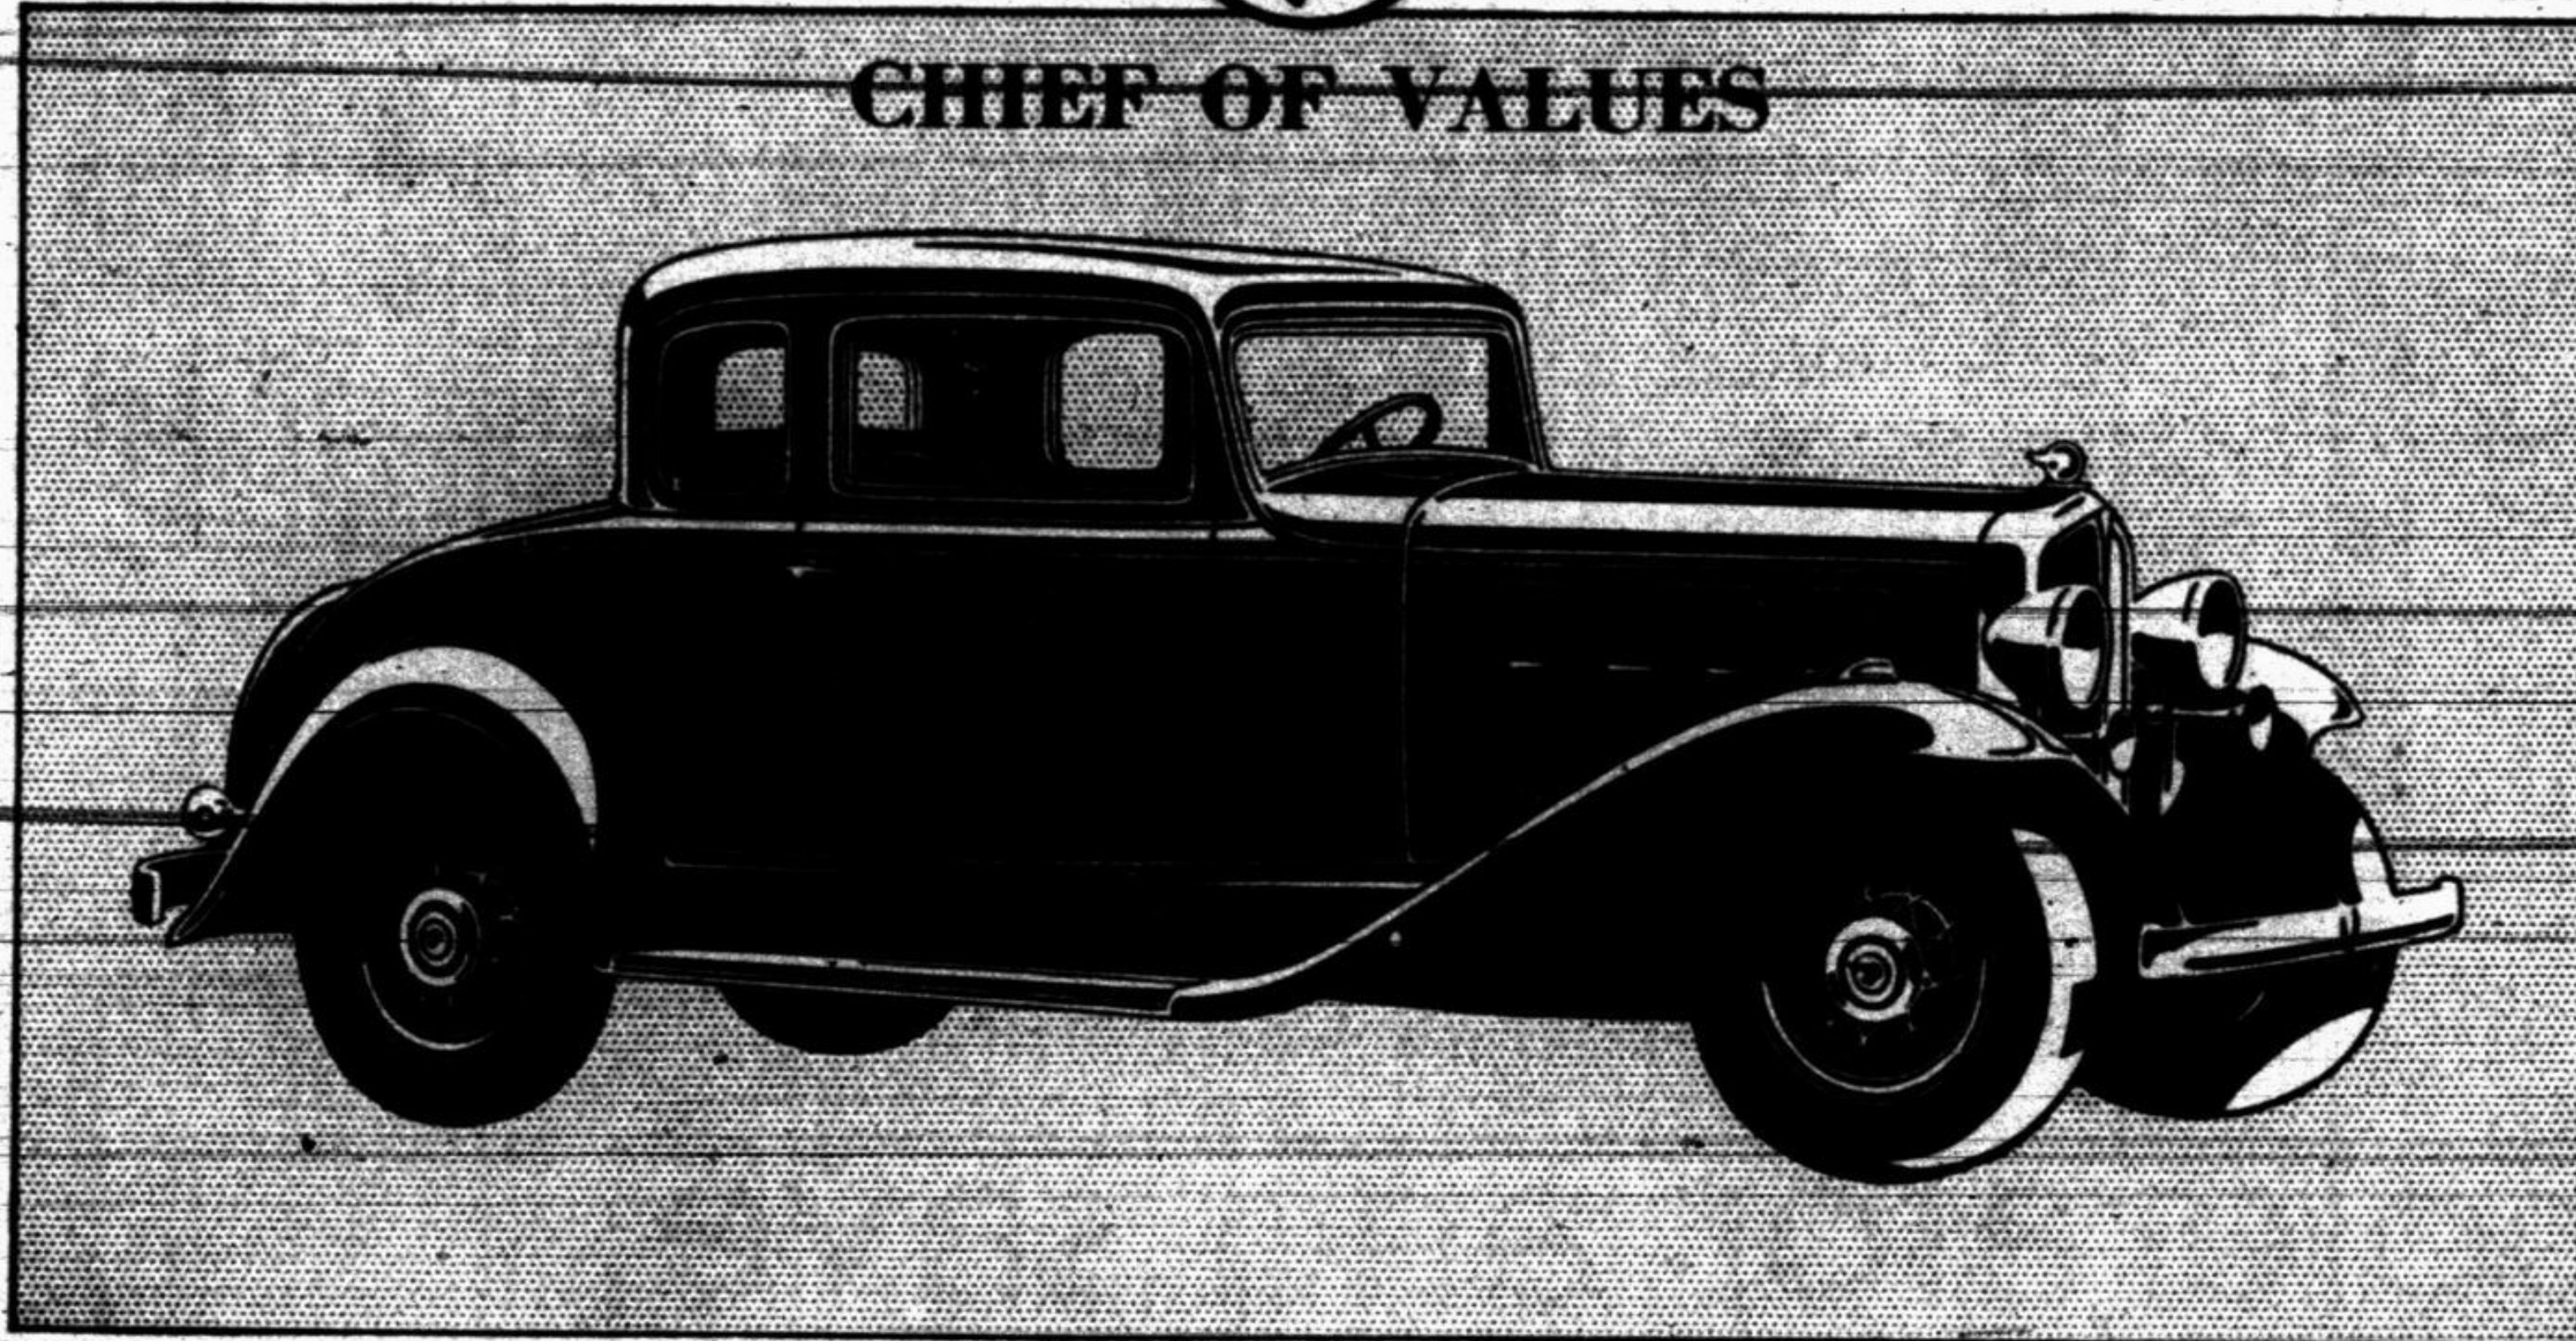

Charles "Rags" Lyman, charged with complicity in the murder of Harry Wilkison, former Gurnee dairyman, was found "not guilty" by the jury, which gave its verdict to Judge Shurtleff last week in Belvidere circuit court.
