

# AND SKATING AT., MAY 21ST

(Continued from page 3)

When one rides a block, he pushes his bike one block and then another rider pushes his bike another block. This is what always attracts the crowd to a roller-skating slow race. This is why so many people come to see who comes in first, the rider must be fast. Other races include sprints, and there are also races for girls.

**Roller Skating Events**  
Roller skating events will include a variety of specialties as well as the regular program.

A big event has been scheduled for this week by the North Shore Gas Company. Valuable merchandise has been offered for sale and by the Cycle Shop. These prizes include:
