**Electrol Oil Burner**

When it comes to figuring the real cost of oil heating, it's not the initial cost of the burner that tells the complete story. It's the cost of operating your burner—year after year—that determines whether or not you will enjoy the greatest advantages of automatic oil heat economy. And, in the final analysis, this heating economy hinges on the design of the burner you select.

**Report Jake Factor Has Leased Estate on Telegraph Road**

Jack (the Barber) Factor, who successfully opposed his extradition to England to face charges of fleecing Britishers out of millions in fake stock schemes, is reported to have leased the Stein place on the Duffield farms on Telegraph road in Lake county, says the Waukegan News-Sun.

Factor is reported to have moved out to the farm to set himself up as once did Terry Druggan and Frankie Lake at their farm near Lake Villa.

Chicago newspaper photographers, attempting to "shoot" Jake in his new setting, were ejected forcibly from the farm so they chartered a plane from the Waukegan airport and, piloted by Clarence Clabaugh, flew over the farm to get the pictures.

**Things To Cook**

by Nina Brewer  
of Home Service Department of North Shore Gas Company.

If you would like to serve a combination of vegetables as an accompaniment to meat or as the main dish of a dinner or luncheon, I am sure you will find a vegetable platter especially satisfactory. I am therefore making the suggestion that you try the following combination:

- Cauliflower
- Spinach
- Carrots
- Whole green beans
- Beets

Cook the cauliflower whole, place in middle of platter, make a cheese sauce and pour over it, sprinkle with a few browned, buttered crumbs and sprinkle very lightly with paprika.

Cook the beans whole, seasoning them well with salt, pepper and butter and place on one side of platter.

Cut off the leaves of the spinach, cooking only the leaves, chop fine, season well with salt, pepper and butter, adding a very little vinegar if wished. Place on the side of platter opposite the beans.

Cook the carrots and beets separately, cut each into dice, season with salt, pepper and butter. Place the carrots at one end of the platter and the beets at the other.

The vegetables may all be prepared early for cooking, making it a very simple process to complete the meal. For the cauliflower in combination with the other vegetables, it is best to use rather a small amount of sauce, less than if it is to be served creamed.

Henry Kern, deputy state game warden, last week delivered a large consignment of fertile quail eggs produced in the state game preserves, to Lake county people who had made application for setting of the eggs.

A German party plans to climb a peak in the Himalayas which is 26,629 feet high. That must be about as high as U. S. Steel was in September, 1929.
