It's easy to save money this way...

Hundreds of women are doing their own washing today who never did it before. No wonder! Electric washers have never been priced so low—they save you a dollar or more every week on your laundry bill. There's no hard work, either. You simply load the tub and the agitator rubs clothes clean. (No preliminary soaking is necessary.) A motor-driven wringer gets clothes ready for the line. In two hours the average wash is done. Let us demonstrate in your home. No obligation.

The popular low-priced Thor washer is pictured above—now only \$69.50 cash—only \$6.95 down "Little by Little". Same model with "skirt" is only \$49.50 cash—\$4.95 down.
