Garden Club Members Tell of Experiences in Own Gardening

Personal experiences of the members in their own garden proved to be a very interesting program at the November meeting of the Garden club of Deerfield last Wednesday at the home of Mrs. W. J. Amendt of Stratford road. Each member gave an account of some experience in her own garden, telling what the Garden club had meant to her. Some told of planting and replanting various plots, how flowers had grown taller than expectation, sometimes marring the border effect or coloring; of the assembling of pines and stonework to obtain the desired results, etc. One member told of planting every vegetable she had ever heard of this past summer with a great deal of success.

Pictures (snap shots) of the planting of a yard on Rosemary terrace, before and after study in the garden club, bespoke the advantages of membership in that club.

Mrs. C. S. Scribner told of the gardens she had visited in England and France during her recent trip abroad.

Mrs. Amendt was assisted by Mrs. G. A. Willen in the social hour which followed with Mrs. E. J. Ginter and Mrs. L. E. Ashman pouring.

There will not be a meeting of the club in December because of the Christmas holidays.

The city of Wilmette takes its name from an early French settler, Antoine Ouilmette.

Show Boat Play Presented at Cort

The show boat is an institution and part of the American theater. And the Four Bryants who started their early career in the days of the four Mortons and four Cohans are probably the most famous and well known of all show boat owners. They have experienced the thrill of playing to a river audience from the smallest obscure Louisiana sugar plantation to three consecutive summers in Cincinnati. And they want you to forget that you are at the Cort theater in Chicago and give yourself up for an evening of real enjoyment and take a trip with them on their Floating theatre down the beautiful Ohio river to Cairo and then on, into the mighty Mississippi where they hiss the villain and cheer the cotton stocking heroine.

Where the ("crop failing farmer") will trade you a bushel of potatoes or three quarts of raspberry preserves for a family complimentary ticket. No spinach.

The Four Bryants will present "East Lynn" at the Cort on the week of Dec. 4.

The first industries of the old town of St. Johns, forerunner of Highland Park, included a hub and whiffle-tree factory; a furniture factory, making a specialty of beds and tables; a pier, 450 feet long; a brick warehouse; a furnace foundry; a machine shop; and a brick yard.
