Social Service To Have "Trouser Day"

(Continued from page 4)

from the Relief Fund, a day's serv- ice is required as payment for such articles. The Red Cross has con- tributed recently a shipment of un- derwear, trousers, boy's knickers and stockings. This is in addition to the material which creates work for the women in the sewing room.

Every Tuesday and Thursday morning the storeroom is open to meet the needs of women; on Fri- day afternoon and Saturday morn- ings the needs of children are pro- vided for.

Social Service in Business

The general store of our earlier history carried no greater variety of merchandise than is found in our old city hall today. In fact, the owners of the best stocked of these general emporiums would be more than a little surprised at the real value of the Social Service supplies. The contributions of the residents of this community combined with the Red Cross allotments of mer- chandise has put the Social Service in business on a scale which would astonish the average citizen.

Beside the clothing, the Red Cross also contributes fifty and twenty- five pound sacks of flour. There are also food staples which Highland Park housewives put into the boxes distributed to all the food shops in the village. These packages are picked up and stored at the Social Service headquarters from where they are sent out to needy families.

707 Barrels of Red Cross Flour Issued

The Chicago chapter of the Amer- ican Red Cross reports that there has been distributed in Highland Park 707 barrels of the flour con- verted from the wheat which Con- gress authorized the Farm Board to turn over to the Red Cross for relief purposes.

William H. Dooley, the Red Cross representative co-operating with the Highland Park Social Service, was in charge of this distribution.

Yearly memberships in the Red Cross have made possible the hand- ling of this task, since the govern- ment made no provision for the con- version, transportation, and distri- bution of either the wheat or the cotton turned over to the Red Cross to be used for the needy.

Service is another storeroom for furniture of all kinds, stoves, lamps and other household equipment.

The Social Service has added another department unknown to the old time general store-keeper. There is a kitchen where a hot lunch is prepared each day for the women at work in the sewing room, and for those Highland Park men who are homeless. These men are lodged in garages offered by High- land Park residents.

Every Monday morning a list of names is posted in the Social Ser- vice building. These are the names of the men who will work for the week, either cutting wood, or work- ing on the woodpile. For this work the men receive the equivalent of \$2 in food or fuel orders a day for

the number of days available to them. Others give their services in payment for clothing, milk or meals.

With all these activities the So- cial Service headquarters are very much like the proverbial beehive. It is with a feeling of gratitude to the citizens of the community who have made this work possible that the organization works tirelessly to alleviate the suffering of our neigh- bors.

Bishop Waldorf at Evanston

Bishop Ernest Lynn Waldorf of the Chicago area of the Methodist Episcopal church will be the prin- cipal speaker at a community task dinner to be held by the citizens of Evanston and of the adjoining towns

on the north shore on Monday eve- ning, Jan. 23. Bishop Waldorf will speak on "The Combined Religious and Moral Forces and Waiting Tasks Around the Corner." He is to be introduced by Dr. Ernest Tittle, pastor of the First Methodist church of Evanston.

Little Lottie, aged four, who was spending a week with her aunt in the country, had developed a great fondness for milk. One day, having drunk as much as her aunt thought good for her, she was informed that she could not have any more.

"Pshaw!" exclaimed the indignant little miss, "I don't see why you want me to be so stingy with your old milk. There's two whole cow- fuls out in the barn."
