

DR. LOIS GREENE TO GO TO CHINA

To Be Associated With Yale-Munan Medical School and Hospital

Dr. Lois D. Greene, one of the outstanding young women of Highland Park, has lately been appointed to have charge of the ear, nose, and throat work at the Yale-Munan Medical School and Hospital in Changsha, Hunan Province in Central China, and will start early in March for her distant post.

After graduating from Grinnell College she pursued her graduate work in ear, nose and throat, at Rush Medical College. Since that time she has been a clinical instructor in Otolaryngology at Rush and continued as an assistant in Dr. George E. Shambaugh's office in Chicago.

For the next four years at least, Dr. Greene will be living in the educational center known as Yale-in-China which was started in 1904 as a friendly gesture to the Chinese on the part of Yale in America.

After careful consideration Changsha in Hunan Province was selected as a strategic point for this project of higher education in China. The medical school was started in 1916. There have been difficult times for the school caused by revolution and uprisings, the last one being the communistic uprising in 1927 when the Americans had to leave.

Dr. Greene's appointment comes from the Chinese government and her credentials are signed by Dr. K. Y. Wang. It is her good fortune that she is not going entirely among strangers since her cousin, Dr. Phillips F. Greene, F.A.C.S., is the medical director, and Miss Jessie Norelius, the head of the school of nursing, is a college classmate.

Best Type of Womanhood As head of her department in a well endowed institution she has a great field of opportunity before her. The students of that far distant institution are to be congratulated upon the coming to them of a young woman of superior training who represents the best type of cultured American womanhood.

Dr. Greene will be missed in Highland Park and Chicago by a wide circle of friends which includes professional people of note. In addition to her private practice in Highland Park she has interested herself in problems of deafness among school children and given freely of her services. At the suggestion and with the aid of Dr. Norcross almost all the children in Highland Park were examined for ear trouble and a clinic established at the Highland Park Hospital for the treatment of those cases which could not afford the services of a private physician. This work has been continued for the last three years. In relinquishing her work in Highland Park and going to her new post, Dr. Greene has the best wishes of the community which she has so faithfully served.

An early contribution already received from the Name Society of the St. Catholic Church.
A meeting of the committee was held on Wednesday and each captain will select four men, together with women who have offered services in order that the drive be completed in one day.
It is estimated that the cost for the coming year will be slightly less than \$5, \$10.33 as a national average. The reason for this cost is the greatly reduced cost of the uniforms and the further sacrifice of the remaining members of the office as well.
The following captains entered their services required quota in Highland Park: Marshall W. Unbehaut, J. E. Engstrom, Otto F. Fish, J. C. Cameron, G. H. Pasquini, and Batisti Pasquini.

The music was at closing time no one was to leave and many played.
Another dance will be held on Saturday night, March 18th to save the Northwestern Scout community dance.
The committee with their thanks not only to the settlers who have contributed go directly to the Varsity and knowing all do, it is not necessary to say that she will accomplish her purpose.
Please remember our activity Sandwich Day may be sent to the Northwestern Scout community dance. The fare taken to children would other lunch, and distribute many loyal contributors to thank them for their support.—Contributed
