Marvels at Physical Condition

One who comes in contact with Mr. Charles S. Deneen marvels at his fine physical condition. Both in the practice of law and in the field of politics Mr. Deneen has been active and successful for 40 years and he is keeping up a fast pace now. Defeat does not discourage him the least; whether it be in the primary of his party or at the polls at a general election, Mr. Deneen takes defeat as one of the fortunes of

Mr. Deneen has been defeated many times, but he always comes He is the solitary Republican leader in Illinois who remains of the group who were active 25 and 30 years ago. And today in his 70th year he heads a group of men and women in Chicago who will be heard from when the party is reorganized or reassembled. Mr. Deneen has always stood for a fine type of men in public office.

Judge Dunne, Democrat, defeated Mr. Deneen in 1912 and he served for four years. He was beaten in 1916 by Col. Frank O. Lowden. Judge Dunne won his party nomination over Roger C. Sullivan, the party boss for a generation. Mr. Dunne and Mr. Sullivan did not get along very well. Mr. Dunne is recalled as a public official who was honest and upright. This home was organized in 1893, following the World's Fair, by Dr. Sarah Hackett Stevenson, a woman who had spent the greater part of her life alleviating suffering and bettering social conditions. At this time Dr. Stevenson was president of the Chicago Woman's Club, and was assisted by her club in carrying out her plans.

The home was opened with a capacity for only nine women, but grew so rapidly that larger quarters were soon sought. This was found possible through the generous aid of the late Senator William B. McKinley, who gave her the two stone building at 2412 Prairie Avenue in 1914. Senator McKinley was president of the board of trustees until his death in 1926. Col. George T. Buckingham, a trustee for several years, succeeded him.

Four Other Buildings Since that time the home expanded until it was necessary to add to its quarters and it now has four large buildings adjoining the original building. Last year its family consisted of 532 different women and 312 different children. The month of December averaged 175 women and children a day.

The Sarah Hackett Stevenson Memorial Home is the only organization in Chicago that keeps the mother and child together. There are other organizations who will keep both, but the mother does not have the opportunity to go out and find work and re-establish herself.

It is not a permanent home, but a refuge where the down-trodden and deserted mother may come and

A Goodly Heritage How sharply the present differs from a past no more than thirty years distant, only those can realize who were born before-say, 1900. But anyone may learn who reads Mary Ellen Chase's "A Goodly Heritage"-a heritage that included

Maine and a more tranquil day. Miss Chase recalls the Saturday mornings when she kept the cradle rocking for five successive brothers and sisters. Only by keeping the baby asleep could she enable mother to make headway with the housework. It was a chore for which the author has been grateful all her life. By that cradle she prepared school; in the years between eight and seventeen she accomplished fifty per cent of a lifetime's reading. This chore was the most peaceful one she had: those were the days when families were co-operative.

Miss Chase's goodly heritage included the sea; and she tells tales of shipwrecks to take one's breath. One of the pleasantest attributes of that it reminds the reader how goodly was his own.

Cook Book For Diabetes

The foreword for "A Diabetic's Own Cook Book" by Stella H. Lyons was written by Logan Clendening. His remarks begin in this fashion: "The authoress of this treatise was dowered by the gods at her birth with the brightest jewel in a woman's crown: she was born a good cook. And afterwards the gods, envious of their own largess, visited upon her something unpleasant: she acquired diabetes. These two utterly contradictory elements wrought within her until she developed another gift: the gift of tongues. And so she wrote this book, which is a good cook's wisdom about her own diabetes." He believes the book should have a place in every diabetic's library.

Willie Kane, representative for the World-Telegram, tells about the Miss Chase's "Goodly Heritage" is query that stumps all applicants for jobs in the New York Fire Department.
