

TEERING OFF

with
TED WOOLEY
Professional at Vernon Country Club

Right on the heels of the greatest golfing event of the year is our own North Shore Open which has in only five years risen to national prominence. It draws in competition the ranking professionals and amateurs. Much credit must be given to Tom Kelly who we wish every success.

Of no lesser importance to local golfers is the Vernon Country Club championship. Of the 250 entrants for this event the leading qualifiers were: Tom Worren 75, Marshall Fredericks 75, Ernie Meyers 77, and John Whitaker 78.

Similar such events are being held at all of the 27 Chicago Daily Fee Golf Association courses. The winners to play off for the Chicago District Championship.

The Iron. The iron club shot differs from the drive to this extent; it is a deliberate punch. You have to pivot on your heels the same as in a drive, but where you do most in driving, your right hand comes of the swinging with your left hand into play more in irons. Nine out of every ten persons will come to me for lessons in irons are those who are hitting behind the ball. This comes from trying to lift the ball up. Instead you should concentrate on driving the ball into the ground. When I have hit an iron shot, the divot comes out ahead of the ball. This not only gives you more distance, but helps considerably in giving you better accuracy.

If you have a question of any kind relative to golf, write to Ted Wooley, in care of the Press, and your question will be answered thru this column.

I wish to thank those from whom I have received such interesting questions relative to the problems of the average golfer which I will answer through this column in succeeding issues.—Ted Wooley.

Judge (Sternly): "Well, what is your alibi for speeding fifty miles an hour?"

George: "I had just heard, your honor, that the ladies of my wife's church were giving a rummage sale, and I was hurrying home to save my other pair of pants."

"Case dismissed."—Boston Transcript.

Reforestation Army To Work In Skokie Valley

Five companies totaling 1100 young men in the Civilian Conservation Corps, the "reforestation army," will be quartered in the hospital group of the Great Lakes Naval Training Station for the summer and early fall while they work on projects in the Skokie Valley district.

The companies will be billeted in the wooden wards formerly occupied by war veterans, and the "troops" will begin arriving this week. The navy, under the proposal, is to have charge of the work of directing the thousand and more men in the reclamation work.

The project will consist of the construction of a series of four tree-rimmed lagoons in the Skokie wastelands north of Chicago, at government expense. The section of the Skokie to be improved is embraced in the Cook County Forest Preserve District.

The men will commute to work each day on special North Shore electric trains. This will provide the men with better housing than could be obtained in Skokie camps, and it will remove the objections from North Shore residents from Wilmette to Highland Park to having big camps of men on the outskirts of the residential communities.

Towns Asked To Survey Pollution In The Skokie

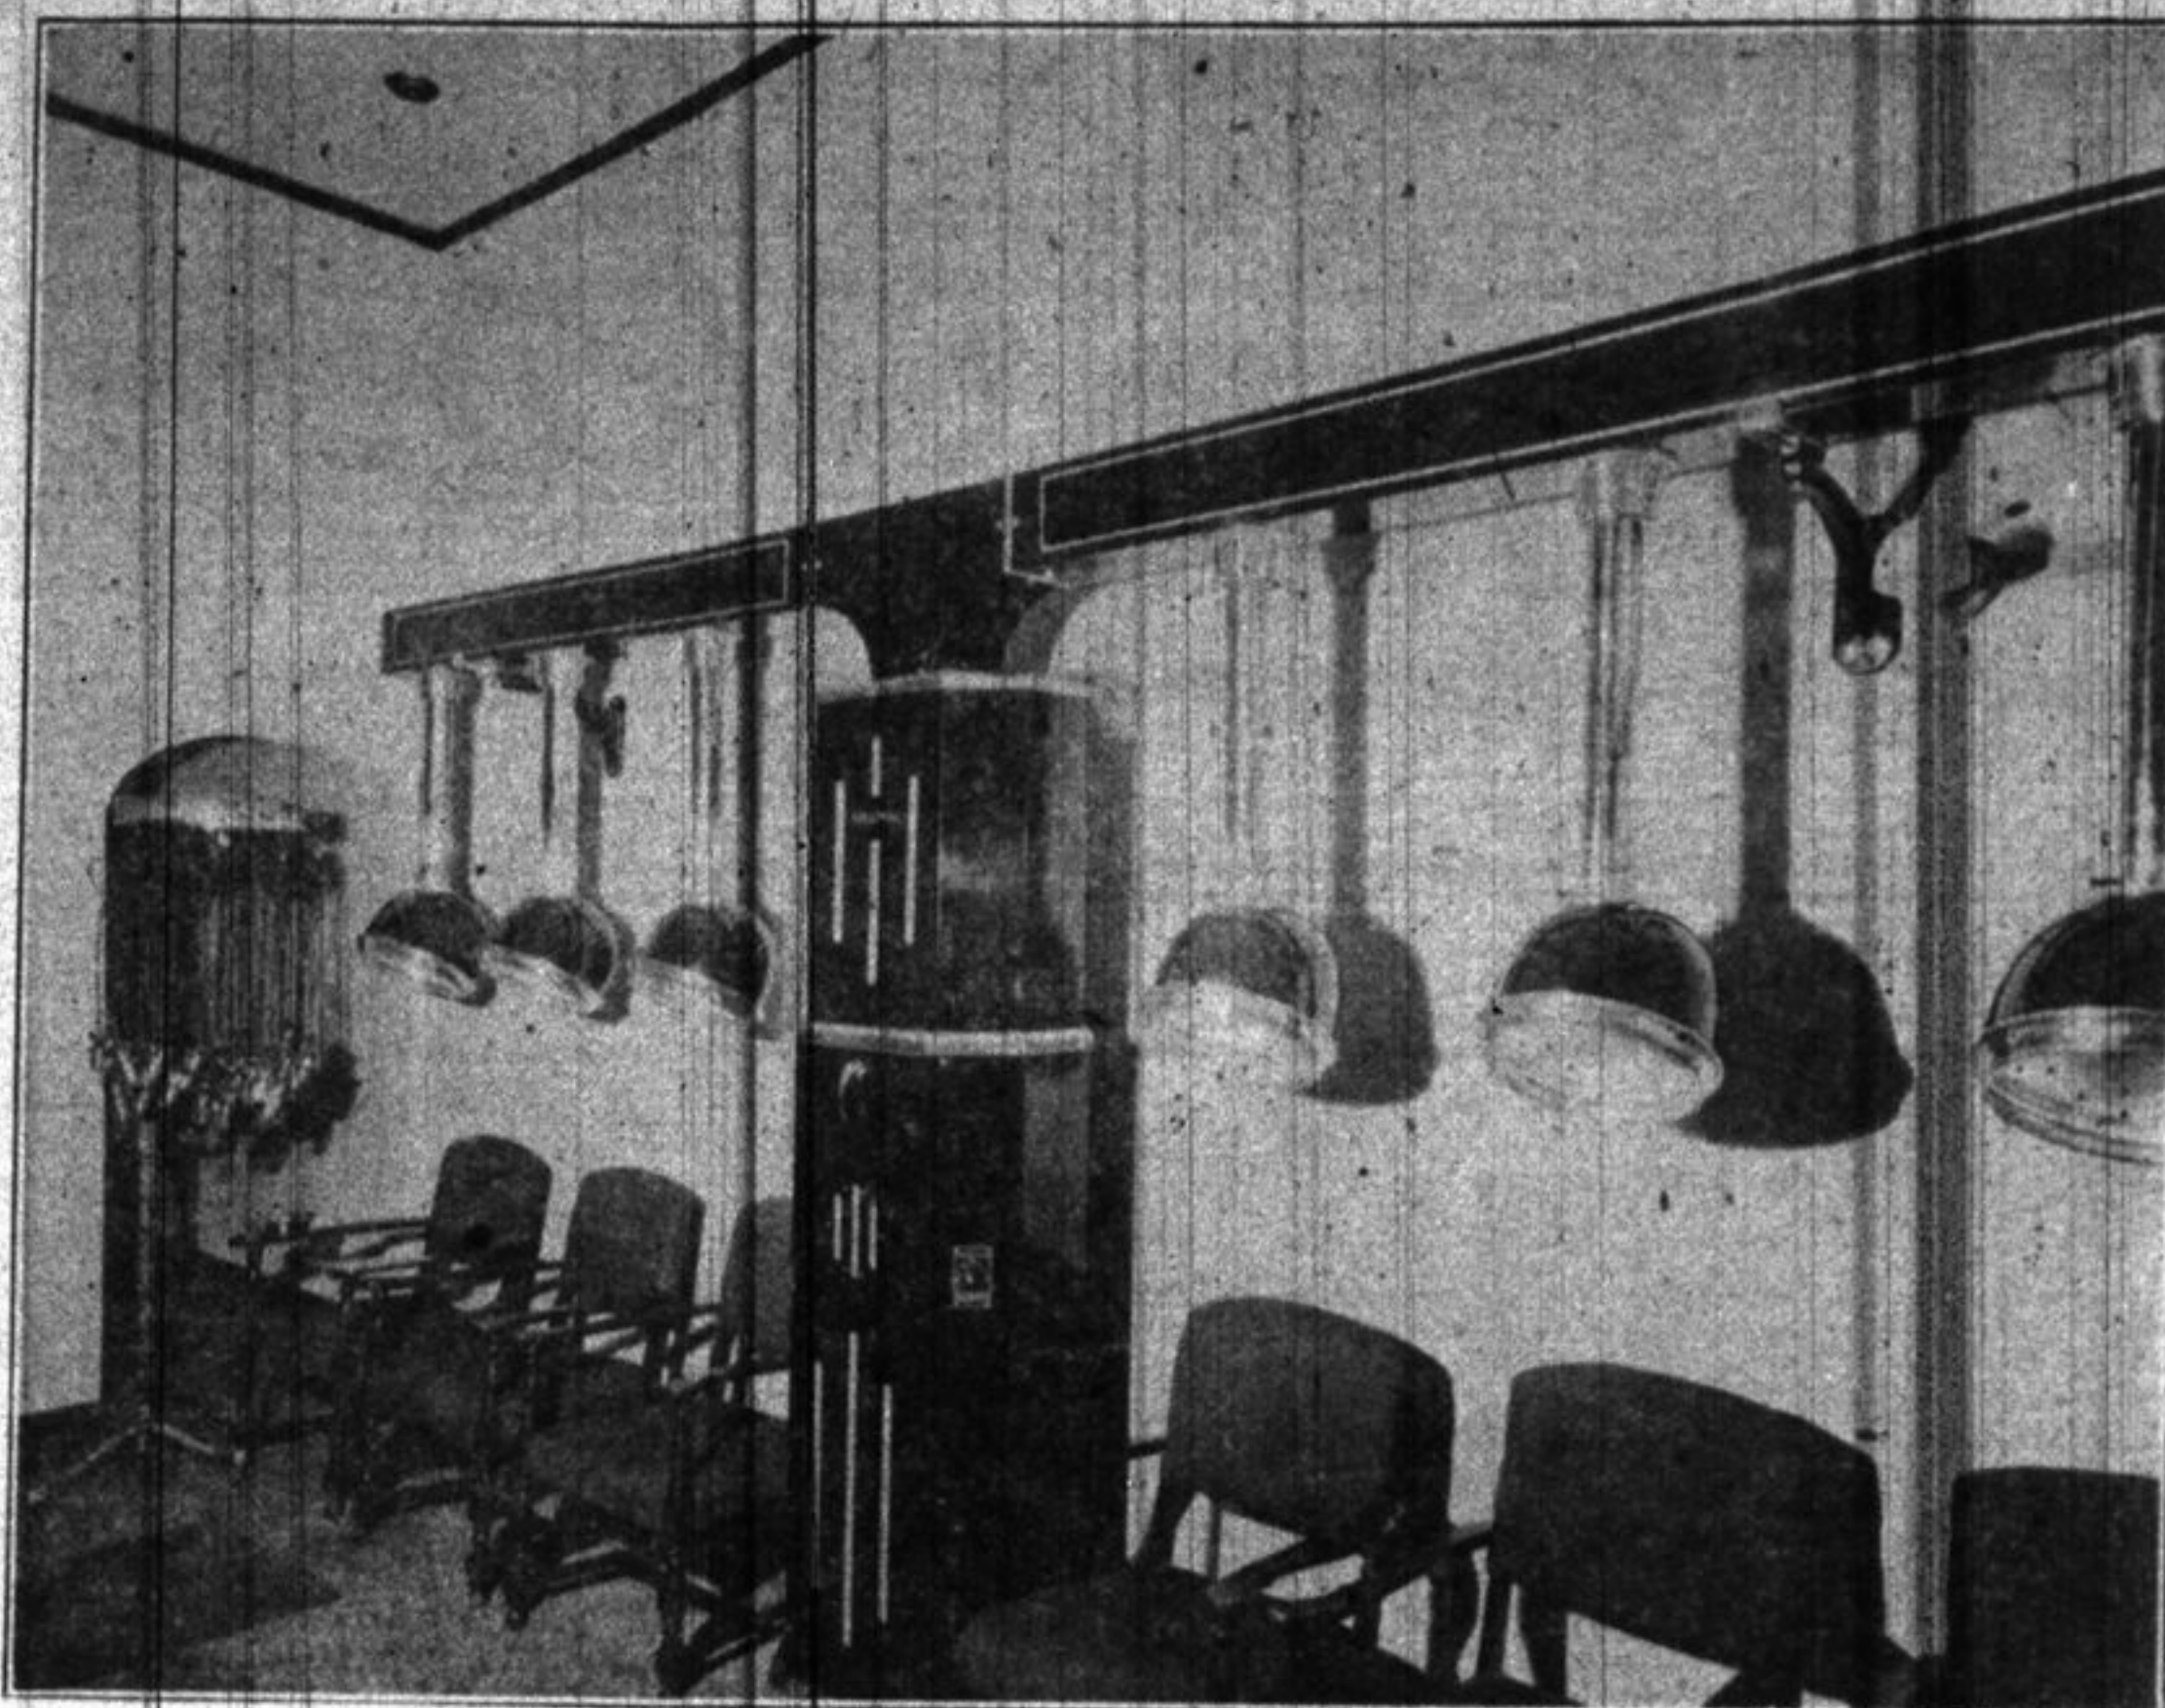

The state sanitary water board has written a number of North Shore towns, including Lake Forest, Highland Park, and Deerfield, asking co-operation in a survey of pollution in tributaries of the north branch of the Chicago River.

The water board wants a survey locally to determine which pollution, if any, within the limits of these towns, flows into streams in the Skokie Valley, and which in turn empty into the Chicago River and contribute to the contamination of that stream. The purpose of the inquiry is to stop pollution at its source.

Deerfield Woman's Club Exhibit At Fair

The Deerfield Woman's Club will furnish the flowers as part of the decorative scheme in a diorama of five rooms at the Horticultural Building on July 3 at the Century of Progress in Chicago. Mrs. Irving Brand is chairman of the committee.

Glencoe Riding School Acquires New Location

Thomas R. Chalmers, of the Glencoe Riding School, who has done so much during the past several years to popularize horseback riding and to bring the cost within the reach of all, has again scored another achievement which is expected will add even more success to his efforts in behalf of the equestrian.

In order to accommodate the ever-increasing number of riders and provide greater facilities for their pleasure, Mr. Chalmers has acquired another new location on the grounds of the Black Heath Golf Club on Waukegan road, just south of County Line road. Here the equestrians of the North Shore will find many miles of delightful bridle paths along which hurdles have been built for those who wish to jump. These paths have been so arranged that one may ride for one, two or even three hours through cool, shady woods, fragrant meadows, or open country without crossing a concrete automobile highway.

The clubhouse of the Black Heath Golf Club has been made available to all equestrians. Here one may lunch on the cool verandas, at very nominal cost, dance either in the outdoor or indoor pavilions or swim in the cool outdoor swimming pool. With the new facilities many new activities are promised, such as moonlight rides ending in a supper at the clubhouse, picnic rides and breakfast rides. Mr. Chalmers plans to inaugurate the first of the breakfast rides next Sunday morning at 7 o'clock. All riders are invited.

Appreciate Help In Landscape Project

The Garden Club of Deerfield appreciates the efforts of Supervisor James O'Connor in assisting them with their landscaping project at the Deerfield railroad depot. Some of the unemployed men were given work re-sodding the many bare patches on the lawn, which adds much to the appearance.

Members of the Deerfield Garden Club are invited to attend an Illinois Garden Club meeting in Barrington on Monday, July 10, at which the Barrington Garden Club will be the hostess club. This will take the place of the July meeting.

Free Christian Science Lecture In Lake Forest

A free lecture on Christian Science will be given next Sunday, June 25, at 8 p. m., at the Gorton School auditorium, Illinois and McKinley Roads, in Lake Forest. This lecture is being given under the auspices of the First Church of Christ, Scientist, of Lake Forest.

William Duncan Kilpatrick, C.S. B., of Detroit, Mich., will be the lecturer. Mr. Kilpatrick is a member of the Board of Lectureship of the Mother Church, the First Church of Christ, Scientist, in Boston, Mass.

Fort Sheridan's Polo Team Defeats Onwentsia

The Fort Sheridan polo team defeated the Onwentsia team of Lake Forest last Sunday at the Fort Sheridan field, 9-5. Fort Sheridan led the scoring in the early stages of the contest and at the end of the fifth chukker held a 6-2 advantage.

Onwentsia rallied in the next period, scoring three goals, but Fort Sheridan came back in the eighth chukker to score two more goals to win.

Public Service Company Cuts Rates 3 Percent

The Public Service Company of Northern Illinois and the Commonwealth Edison Company of Chicago have announced a cut of 3 per cent in the cost of electricity to the consumer, starting on July 1.

The cut will be accomplished by having the company absorb the 8 per cent government tax at once, instead of waiting until Sept. 1 when, owing to congressional action, the companies would have to absorb the tax. The companies had previously notified the Illinois Commerce Commission that if the government required them to absorb the tax, they would have to raise the rates to consumers to carry the cost.

The Public Service Company estimates a saving of \$390,000 a year for domestic users of electricity, and \$135,000 a year in gas rates for homes.

The old-fashioned woman who paid and paid has a daughter who says charge it.—Florida Times-Union.

Miss Leuer Is Honored At Webster

Miss Helen Leuer, daughter of Mrs. Joseph Leuer of Highland Park, was elected to Kappa Gamma national women's honor society. Miss Leuer, who was graduated from Webster College, a private college of St. Louis, this year, was one of a class of thirty-eight chosen for this honor.

Requisites for admission to Kappa Gamma Pi are scholarship, leadership, and loyalty. Miss Leuer received her degree of bachelor of science with the honors of cum laude. During the past year she has served as president of the Fraternity of her class, representative on the Student and secretary of the Mat. Club. Last year Miss Leuer was president of the Chemistry club, vice-president of her class, active in athletics she has been the first award of the Athletic Association of Webster College was also chosen to carry the chain in the May Day exercises of her junior year.

Miss Leuer intends to attend national convention of Kappa Gamma Pi, which is to be held in Chicago during the latter part of the year. At present, she is employed in the department of geophysics of St. Louis University.

Picchietti Brothers To Move To Modern New Store Here

Picchietti Brothers grocery market, on South First Street, signed a new lease at 380 Avenue and will move in the next four weeks into one of the most modern stores on the Shore.

Picchietti Brothers have been in business on South First Street about 12 years, and have built a good business, requiring better terms. Their new store will have more equipment throughout, a room itself will undergo alteration and remodeling.

The store is announcing a week-end sale of quality foodstuffs in the Highland Park Press. The sale appears on another page in this issue, and lists many good groceries, vegetables and meats.
