MORE SUMMER ROM
Vina Delmar Has New
(by Dorothy Elliot)

What more fitting weather and consequent cal afternoons than a grovels which we will call, for a better name, "hammock. If you were ever able to a "why" for Vina Delmar "Bad Girl" and "Kept," want to read her new no-riage Racket" (Harcourt despite any warning we you. It is the story of a time trouper, her marry motherhood and her life pampered darling of a lionaire. Her colossal self neuroathetic maternal copled with her constant bored us considerably. On she is presented as quite and the very next she is small degree above the class. If the climax is su leave one with the idea repentance and reform is and unconvincing. Howev said before you will prob to read it.

You'll like "Strange Un ing" by Harriet T. Comst bleday, Doran), the story McNeil who has been hand jolt by friend wife that color his entire life. The Neil was one of those who choose the life of the g rather than that of home side. In this story she r Larry to die and to beq daughter Jan to him. His against paternal love strange, elfin child and his for his ward Tony are in conflict. The subsequent fair of Jan and Tony and rriage give us a truly cha mance.

"Fountain Boy" by Nel (Vanguard Press), conta edge of sparkling sophi which should by rights elev least to the country club la This airily written tale, m Robert Nathan manner, w a breezy mental atmosphere ter how torrid the day. was not, as we supposed, ence to mythical dryads o boiling satyrs. No indeed, is none other than one of the who jerks sodas for you at ner drug store. However, ticular dispenser of fruit syr his numberless inamoratas, ing as they do a Greenwich artist, a premier danseuse worldly widow, will entert with their sprightly convy As you would never guess must add that this is Mr. maiden effort.

DELIGHTFUL MEMOIRS
SCOTCH PHYSICIAN

Hailed As a British "San M (By Prescott Williams)
The publishers advise "Arches of the Years" by J Sutherland (William Morrow has swept through four large ings in England in less th weeks. We have reluctantly over the last page and we at all surprised at the suc this book abroad. We are co it will repeat in this country Dr. Sutherland, a distin specialist, writes with rare and, while many a contem might have had a more sen career, this physician has a exalting commonplaces to a of excitement. A doctor priest of the body and share the Religious that deep and understanding of the strengt the weaknesses of the huma When such a man has the ab put his experiences and his osophy into prose, is it small that a most interesting huma ment will be the result?

"The Arches of the Year counts Dr. Sutherland's chi days in Scotland; his educat Edinburgh; his successful p of the medical examination thereafter, his early experie practice. In the south of Sp assists at his uncle's clinic a some amusing experiences n least of which was his utter learn the technique of "bull-fi His was days as a physici tached to an armed liner are esting and lively and his lat periences, while not sensat out of the ordinary, are writ a style that holds attention th out.
