Ideal Party Charges Whispering Campaign in Highwood's Race

(Continued from page 1)

would cost in the vicinity of a quarter of a million dollars before completion—no guarantee would be given as to whether Highwood would get hard, soft or original water and no guarantee was given as to how long the supply would last. The complete history of this project is a public record on file in the office of the city clerk of Highwood and can be investigated by anyone at any time. Don't listen to fancy but demand facts and figures.

The Ideal Party gives to the people of Highwood the facts on this matter so they will not be misled by a false fancy that never could be accomplished with profitable advantages.

"It is a well-known fact that the finances of the city of Highwood are in a position that should concern every good citizen of this city. Due to bank failures the city has tied up approximately \$40,000. Its credit has been reduced to a cash basis. Many outstanding bills to be paid with no funds to pay them. These statements are also a matter of public record in charge of the city clerk.

"The present situation calls for officials with experience and ability to encounter and overcome this unfortunate condition of our community.

"The Ideal Party candidates embrace men who have experience in all phases of the city's finance departments. The Ideal Party consists of a former mayor, two former treasurers, one former collector, two former clerks, and two former chairmen of fire and water and street and alley committees. In addition they all have been executive representatives of the various civic, fraternal and welfare organizations in Highwood.

"Need there be more said as to the qualifications of these men to handle Highwood's funds honestly, efficiently and promptly?

"We are sincere with the people of Highwood and can only ask that they be sincere with themselves and vote the straight Ideal Party ticket."

Bird Study Trip to Waukegan a Success

Last Tuesday morning sixty enthusiastic people gathered at the flats just north of Waukegan for an interesting study of the birds of that region. Following the hike they cooked breakfast and enjoyed their first outdoor meal of the season.

George Scheuchspflug, director of Community Service in Highland Park, was quite sure that he saw at least two birds on the trip; the crow and the phoebe. However other bird fans assure us that about twenty different species of birds were seen and studied.

Bert S. Leech, the leader of these bird hikes, tells us that the next hike will be on Tuesday, April 18, at 6:00 a.m. The group will meet at the shelter house in Sunset Park. You are invited to come and join this interesting group. There is no charge.

Deerfield P. T. A. Hold Final Program April 21

The Deerfield P. T. A. will hold its April meeting on Friday, April 21st at 2:30 p.m. This is the final program of the year's study on "Educating for Leisure." As was planned and announced, it is hoped that parents will bring to the meeting any handwork or leisure time

project upon which her child has worked.

Of special interest to everyone will be Mrs. Charles E. Piper's paper on "Influence of Leisure Time Activities on the Character Development of the Child." Also a guest speaker, Mrs. Frank, of Winnetka, who was instrumental in founding the Farm School west of

Winnetka, and who has done some remarkable work in creative art with her children. She will bring along to exhibit, some of her work as done by her children, and tell us how we can help ours to make similar things in their leisure time. This will be very interesting to mothers and hope all parents and friends will feel welcome to attend.
