GRID TEAM IS BEING WHIPPED INTO SHAPE

(Continued from page 1)

and J. Mosely will handle the ends. All but Mosely are familiar figures on the gridiron at Deerfield. Mosely, a cocky individual who hails from Oklahoma, has to get used to the atmosphere at Deerfield-Shields before he will be able to tell whether or not he's as good as he's supposed to be.

The tackle and guard posts will be handled by three veterans and a newcomer. Tom Irving, 184 pounds, and Vincent Ghini, 180 pounds, are the two regulars from last year's team to take over the tackle position. Kelley Croke, a letterman last year, and Olson, a newcomer, will be at the guard station. There are few reserves to be sent in for substitutions, but the few that are left are valuable. Bill Holmes, a big fellow who weighs about 180, will be seen at almost any place in the line, a sort of utility man. Fellows is a reserve guard and Ullman also. There are several others who will undoubtedly be given a chance to show their wares before the season is over.

At center Coach Cox has burly little Schwalback and a freshman by the name of Irving. The former is the likely starter with Irving or Holmes filling in when the time comes. There are several others who were included among the line-men and also several backfield men, who from what we're told, quit because they "couldn't take it."

Quarterback Is Question
The backfield is rather fast and shows quite a bit of promise. The quarterback position is the only place in question. At present either Rollery or Bob Wicklander will handle the assignments. The latter is my choice, but then Mr. Cox is the coach.

Viverito, Mowers, Schwartz, Hurd, and Doretta will be seen at half. Viverito is the "brains" of the outfit according to Coach Cox. Viverito will pick the play and the quarterback will call what he gives. Allen Axton and Paul Allen will be at full-back. Both are good men and both have outstanding features. Axton is a good plunger and brilliant open field runner, Allen on the other hand is a fearless line smasher and good for four yards, at least, any day in the week.

When the season does start we wonder if the school will show more spirit than they did last year, or will they let their rivals show them up as they usually do.
