She keeps
a spotless
bathroom

and she's equally good at draining a crankcase

"When it comes to keeping a bathroom clean," you say to yourself, "no one can do it better than I can. But draining a crankcase, why I wouldn't even know where to begin."

Allow us, madam, to let you in on a secret. You don't need to know where to begin. All you need to know is the address of the nearest Standard Station. You just bring the car in and Cheerful Stan does all the rest. He drains the oil, puts in the right grade, makes a record so he can remind you when it's time to do it again. At the same time, he checks the tires, the battery, the radiator, does all the little things necessary to the proper care of a car.

The next time the man of the house says, "Sure I'd like to go out this evening too, but I can't because I have to take the car out for service," why not take the job off his hands and do it yourself the next day? With Cheerful Stan's help you can do it quite as well as he can.
