Sea Scouts Work on Albatross

The Sea Scouts in the North Shore Area Council are busy fitting out their cruising schooner "Albatross" for a summer of interesting trips on Lake Michigan. Last year one of the cruises got as far north as Lake Superior through the Strait of Mackinac and the Sault Ste. Marie. Some of the crews have hopes of duplicating this feat again this summer.

The "Albatross" is a Marconi staysail rigged schooner, fitted up to accommodate 12 Sea Scouts and leaders. She was built originally for the "Albatross" is a Marconi staysail rigged schooner, fitted up to Col. A. E. Pierce.

It is one of the Sea Scout requirements that boys actually participate and work on a boat. They learn to appreciate how a boat is designed and built, and get some understanding of all of the work that is necessary to make it sea worthy.

The Sea Scout work is being done by the following skippers: Will C. Huggins of "Ouilmette" in Wilmette; John Ross of the "Albatross II" in Winnetka; Lyle Gouley of "Port Clinton" in Highland Park; J. H. Swan of "Sea Eagle" in Libertyville, and Tom Atteridge of Sea Scout Patrol 46 in Lake Forest.

Any Sea Scout interested in working on the boat should get in touch with the Sea Scout director, Gerald W. Shipman, at Scout headquarters in Highland Park.

Firestone Introduces New High Speed Tire

A new high speed tire is announced by Firestone Tire & Rubber Company and is now on display, featuring an increase in non-skid mileage, according to August Haak, local Firestone dealer.

"The new tire has five important improvements—flatter tread, wider tread, deeper non-skid, greater thickness, and more and tougher rubber," Mr. Haak says. "This is made possible by the Firestone patented process of gum-dipping, by which the high stretch cords are soaked and coated with rubber, providing greater strength, safety and blowout protection."

"The Firestone developments embodied in this new tire have been proven by constant testing on Firestone's fleet of test cars, day in and day out, 24 hours a day, over all kinds of roads and highways throughout the country, 12 months in the year.

"The five improvements of the new Firestone Tires also apply to the new Firestone Air Balloon, bringing maximum traction and riding comfort with low-swinging style. Firestone supplies the tires with wheels in colors to match your car in these balanced Air Balloon units."

Stamp Collectors Hear Col. Ralph Kimble Here

Rain, unaccustomed as it was, proved no bar to the North Shore stamp collectors last Monday night, May 21, for over thirty of them, driving from all along the lake from Evanston to Waukegan, attended the May meeting of the North Suburban Philatelic Society at the Elm Place School. They were rewarded by a brilliant talk by Col. Ralph Kimble, stamp editor of the Chicago Daily News, who told them about the functions and advantages of local clubs.

It was announced that the June meeting, to be held June 18, would feature an auction to which all members could send five lots. The material will be arranged and auctioned by Mannel Hahn, of C. Hahn for Stamps in Winnetka. Details can be obtained from Mr. Hahn, at 545 Lincoln Street, Winnetka, or from R. Klingler, Post Office, Highland Park or from any officer of the club.

Ben Lewis, president, announced that there were 33 charter members and that more members were welcome and needed. The newly organized stamp club

in New Trier Township, which welcomes members from any place on the North Shore, met Wednesday, May 23, at Suite 10, 545 Lincoln, Winnetka. Since the following Wednesday falls on a holiday, it was voted to hold the weekly meeting on Tuesday, May 29, next week. Organization will be completed, and the club will cooperate with the North Suburban Philatelic Society to make a full program of stamp collecting activities for all the North Shore. Visitors are always welcome and invited.

One Case will convince you—that

Monarch, Chicago's own brewery, has been in continuous operation for nearly 50 years, operating during the 14 prohibition years under federal supervision.

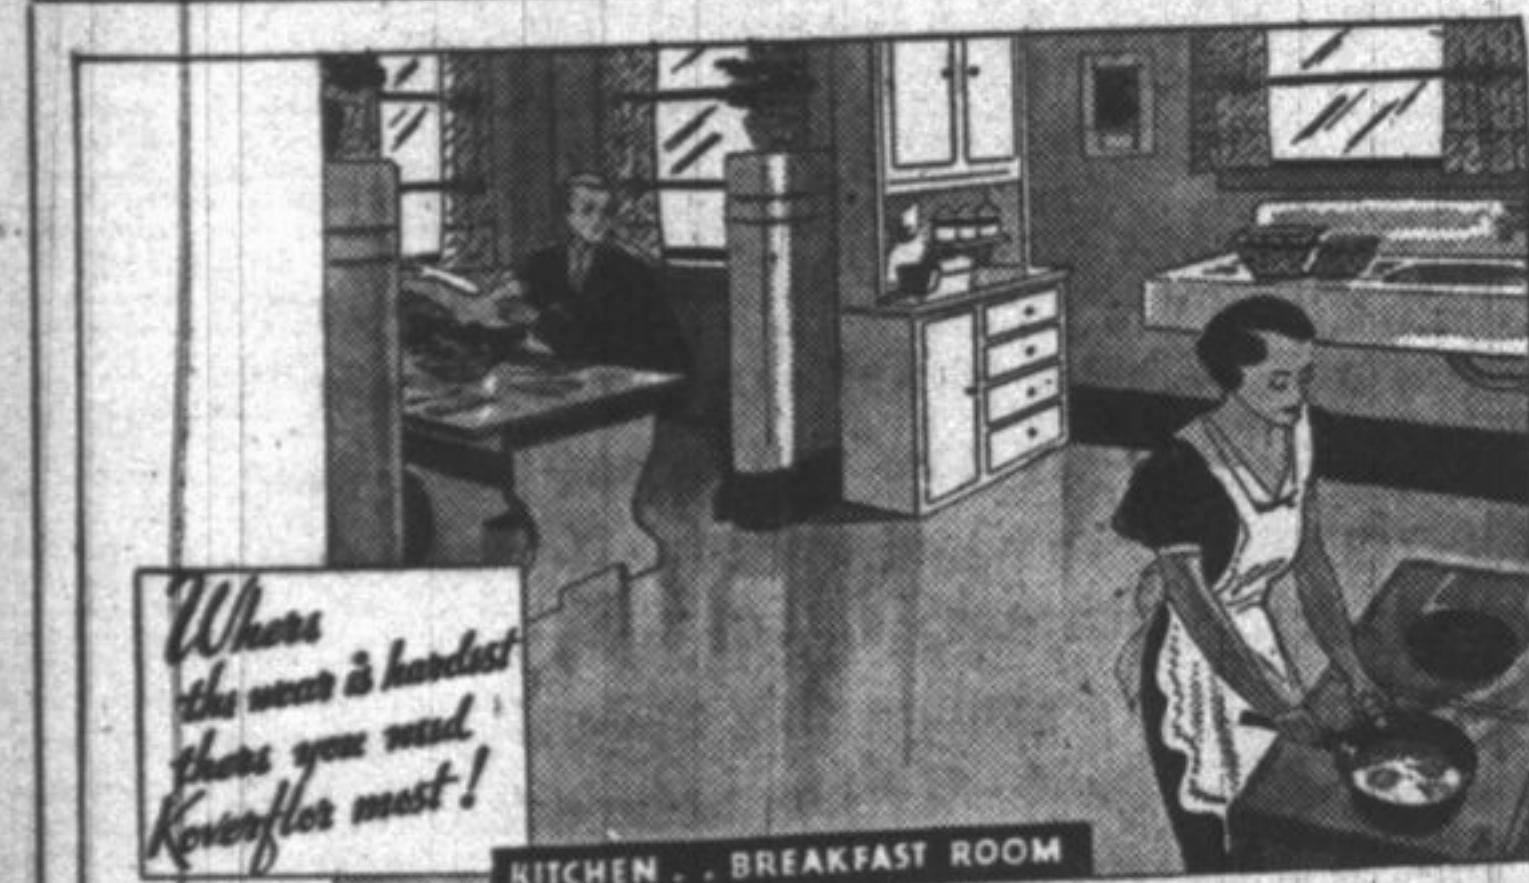

Over 200,000 barrels of Monarch Beer were sold annually right here in Chicago before prohibition—it was the most popular beer in Chicago. Old timers will verify this.

Adolph Dirian, the brümeister, made Monarch beer before prohibition. He makes it now. His counsel and advice and his culture of yeast is sought by breweries all over this country.

Serve a case of Monarch in your home; you'll taste the difference. Monarch is less in price because there is no freight added.
