CHRISTIAN SCIENCE CHURCHES

"Life" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist on Sunday, July 22.

The Golden Text was, "As the Father hath life in himself, so hath he given to the Son to have life in himself" (John 5:26).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "I call heaven and earth to record this day against you, that I have set before you life and death, blessing and cursing: therefore choose life, that both thou and thy seed may live; that thou mayest love the Lord thy God, and that thou mayest obey his voice, and that thou mayest cleave unto him, for he is thy life, and the length of thy days" (Deut. 30:19, 20).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "The spiritual fact and the material belief of things are contradictions; but the spiritual is true, and therefore the material must be untrue. Life is not in matter. Therefore it cannot be said to pass out of matter. Because Life is God, Life must be eternal, self-existent. Life is the everlasting I AM, the Being who was and is and shall be, whom nothing can erase" (p. 289, 290).
