

CHURCHES

First Church of Christ, Scientist
 Highland Park, Illinois, 381 Harvard Avenue, is a branch of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass.
 The Sunday morning service is held at 11 o'clock, and the Wednesday evening meeting, which includes testimonies of Christian Science healing, is at 8 o'clock.
 Sunday school is open to pupils up to the age of twenty years, and is held Sunday morning at 9:30.
 Subject for next Sunday's lesson sermon, "Unreality."
 A free public reading room is maintained by this church at 43 N. Sheridan Road, which is open daily from 9 o'clock in the morning to 6 in the evening. On Sunday the reading room is open from 2:30 to 5:30. Here the Bible and all authorized Christian Science literature may be read, borrowed or purchased.
 All are cordially invited to attend the services and make use of the reading room.

CHRISTIAN SCIENCE CHURCHES

"Reality" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, September 30.
 The Golden Text was, "Whatever things are honest, whatsoever things are just, whatsoever things are pure, whatsoever things are lovely, whatsoever things are of good report; if there be any virtue, and if there be any praise, think on these things" (Philippians 4:8).
 Among the citations which comprised the Lesson-Sermon was the following from the Bible: "Thou, O Lord, remainest for ever; thy throne from generation to generation" (Lamentation 5:19).
 The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "All reality is in God and His creation, harmonious and eternal. That which He creates is good, and He makes all that is made" (p. 472).

Friday:
 11:00 Presbyterian Society will meet at the Edgewater Church. Mrs. W. W. Ramsey, Mrs. Irvin Dungan, and Dr. Albert W. Palmer will be the speakers.
 7:30 Boy Scout meeting.

Sunday:
 9:45 Church School. All departments are starting on the new quarter's work with the proper promotion and adjustments. May the attendance be as large as it was last Sunday for Rally Day.
 10:40 Meeting of the session.
 11:00 Morning worship. Communion service and welcome of new members.

7:00 Tuxis Society. Harry Skidmore has charge of the meeting with the subject "Why Have a Young People's Society?" It looks as if this would be a lively discussion because some of the young people who took part in the mock trial at our retreat want to argue for the opposite side.

Monday:
 2:30 Woman's Missionary Union, first meeting of the season, at

the home of Mrs. George Bard, 295 Maple Avenue.

Tuesday:
 1:00 Presbyterian Guild luncheon at the church. Dr. George H. Betts, head of Religious Education at Northwestern University, will speak and Mrs. Mary Kimball VanStenderen will sing, accompanied by Mrs. Jessie Wood Sincere. The meeting will begin at 2:00 and those who are able to attend the luncheon are urged to attend the meeting.
 6:30 Training Institute on Missionary Education at the Edgewater Church. Supper at 6:30.
 7:45 Young Woman's Club meeting.

Attractive eye-saving lamps are also being shown by other dealers

Better Light . . . Better Sight

NOW THAT DAYS ARE SHORTER!

It's up to you, Mother to Protect those Precious eyes

In two out of three comfortable homes, lights throw glare and strain on eyes. Expert lighting engineers have created lamps that protect against these dangers. See them at your Public Service Store.

LESS daylight now for millions of eyes! Hours more of reading under artificial light. Unless you have correct lighting in your home, think of the strain this extra use of eyes can mean. Especially for young eyes which must spend hours over school books.

What correct lighting is

To protect eyes you should have from 20 to 30 foot-candles of light falling on the printed page. It should be properly diffused with no glare, no deep shadows, no contrasts to cause eyes to change focus frequently. Under such lighting, eye tension is relieved. Your body relaxes. Your nerves relax, too.

Why many homes fail to have it

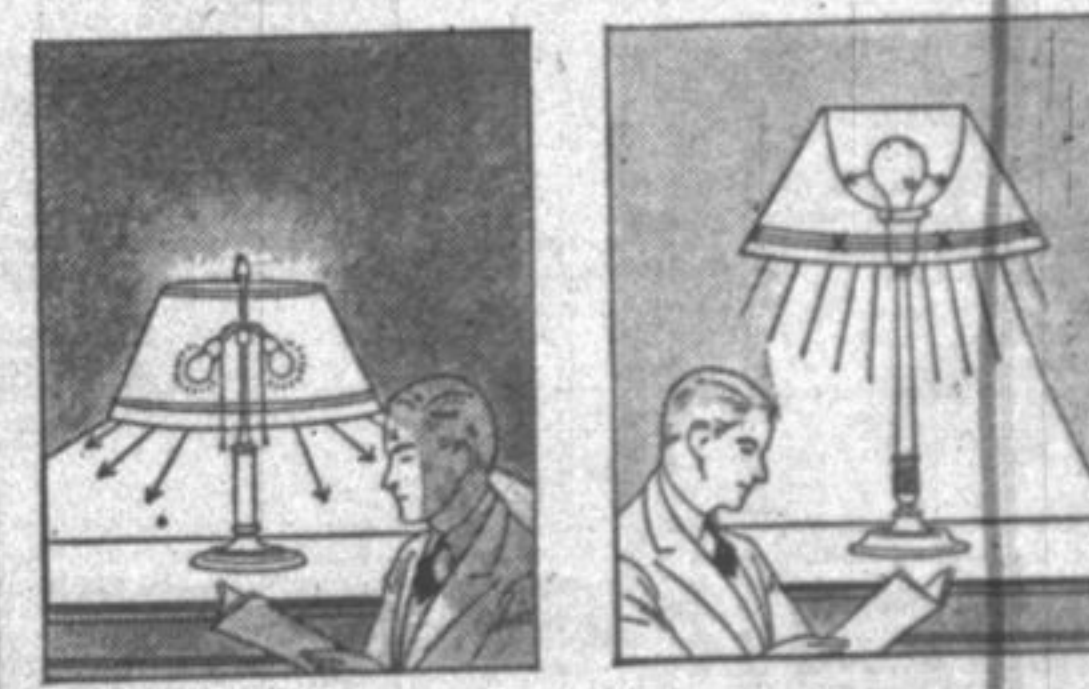

Most women would be only too glad to give their families the benefit of safe lighting; to protect the eyesight of their children. But they have no way of measuring the kind of light their lamps give. And so night after night eyes struggle on with danger of permanent injury.

How to get it

In the last few years some wonderful discoveries have been made about proper lighting. Lighting engineers have found that just by changing the position of shades, by raising or lowering the height of bulbs, and by designing a special kind of "light reflecting" shade, these handicaps to eyesight are completely overcome. Your Public Service Store has

a variety of these properly designed lamps for sale. They are beautiful as well as safe for eyes. Come in and see them, and at the same time learn from our better lighting display, simple and easy ways in which you can improve the lighting in your home. And get Free, a marvelous little device called "The Lighting Tape Measure," which enables you to tell quickly whether or not each lamp in your home is providing safe light. Act at once. Don't allow the eyes in your family to struggle unaided another night.

Which is YOUR lamp?

Lamp 1. Bulbs too low, sides of shade too sloping. Result—glare, deep shadows, eyestrain. Lamp 2. Bulbs at right height, shade of correct design. Result—restful light, precious eyesight protected. FREE at your Public Service Store, "Lighting Tape Measure" to test your lamps. Get it today.
