Dangerous Says the Chicago Motor Club

Although four-fifths of all automobile traffic operates during the daylight hours, nevertheless onehalf of all fatal accidents occur after sunset, points out a bulletin issued recently by the accident prevention department of the Chicago Motor Club. "In other words," says the bulletin, "night travel is four times as dangerous as day travel."

Tests have indicated that a driver of a moving car cannot see a pedestrian or other obstacle in his path at night for as great a distance ahead as when the car is standing still. At thirty miles an hour this sight distance at night is reduced 25 per cent, while at sixty miles an hour the reduction is almost 50 per

Many accidents can be prevented, in the opinion of the club safety experts, by adequate street lighting, which has been proved by trials in various parts of the country, notably at Cleveland, San Francisco, New York and Detroit,

A recent study showed, the bulletin points out, that 49 per cent of winter accidents are owing to insufficient lights. Studies indicate that any curtailment in street lighting expenditures is accompanied by an immediate increase in night-time fatalities. Preliminary studies of 1933 budgets versus fatalities, with forty-five cities reporting, indicate that drastic street lighting budget reductions will bring about at least

Auto Sales Increase by 45 Percent In 1934

Alfred Reeves, vice president of forthcoming year." the Automobile Manufacturers' Association, reported for 1934 an increase over 1933 of 45 per cent in automobile sales, on the basis of available statistics.

"In the light of these figures," Reeves said, "it is not difficult to understand the optimism with which leaders of the motor industry are

sales campaigns. Clearly, continued gains * * * are expected during the

completing the plans for their 1935

Constructive Platform

for the Advancement

Highland Park

Merits Your Support of

DANIEL L.

MAYOR

A Few of the objects for which Mr. Cobb will work:

PROTECTION OF HOMEOWNERS

To have legal department of city protect homeowners whose property is in distress on account of default in special assessments. Co-operate in adjusting rights for the benefit of both bondholder and property owner.

CREATE SEPARATE TOWNSHIP

Seek Special Election to decide whether Highland Park should be made a separate township coinciding with city borders limiting taxpayers' burden to local relief cases and relieving dependent persons from necessity of looking to charitable organizations for

PUBLIC COUNCIL MEETINGS

Meetings of the Highland Park City Council should at all times be open to the public. Regular meetings should be held at the regular stated time. Important matters should not be disposed of in a star chamber session. Full publicity for all council doings.

A GREATER HIGHLAND PARK

Recognizing the fact that Highland Park is a rapidly growing city, efforts should be made to provide better parking facilities for our business district. Encourage our citizens and those of neighboring communities to shop here. Repave main thoroughfares with state aid.

ELIMINATE DANGEROUS CROSSINGS

Dangerous railroad crossings such as at Central Avenue, Elm Place, Lincoln Avenue, Roger Williams Avenue, and County Line Road and others can be eliminated, securing, if possible, funds from federal and state departments, and employing local labor and material.

ENFORCE CIVIL SERVICE

The people voted for civil service four years ago. This should be enforced so that public employees will not be at the will of politics. Employees should be selected as to qualifications and experience. Pay cuts should be restored as soon as possible.

AVOID FACTIONAL FAVORITISM

All elements of our population should receive consideration in selecting public employees. All hiring and appointments by the city should be made without regard to race or party affiliations. We recognize no difference between the interests of local business men, local workmen or commuters.

LOWER UTILITY RATES

Our local rates for electricity, gas and telephone are excessive. The city should insist on a lower telephone toll charge between Highland Park and Chicago-as well as to nearby communities. New franchises should be withheld until adjustments are made. The matter should be presented to the Commerce Commission,

FEDERAL WORK PROJECTS

The city should join in making application as soon as the federal government starts allocating work projects, for a new post office, new community house, and such other improvements as a survey may disclose necessary. Highland Park has not had its share of federal aid.

FREE GARBAGE DISPOSAL

The statute provided that cities the size of Highland Park may have free waste and garbage disposal if proper ordinances are passed. This would assure sanitation at a far less expense than home owners must now endure. Preference can be given to present private facilities in letting of contracts.

NOW... CONTROLLED COST

TER HEATER INVESTIGATE THIS SPECIAL OFFER AND OUR NEW LOW WATER HEATING RATE install the new High-Low Penfield auto-

Nothing is needed more urgently in every home than a constant supply of clean HOT water at a uniform temperature. From before breakfast in the morning until bedtime at night . . . HOT water plays an important part in every house-

Many more families . . . in addition to the thousands already enjoying it . . . now may have automatic gas water heating service in their homes. For as little as \$1 down . . . and \$1.50 monthly . . . we will

matic gas water heater. If you try it and do not want it . . . the Penfield will be removed without further expense to you.

Cost of hot water is remarkably reduced with our new low rate for automatic gas water heating . . . and an additional saving may be made with the Penfield.
