

these characteristics so well that even the little people seemed to get their meaning. We are so glad that such traits as kindness, honesty, simplicity, reverence, and loyalty are ones we can all work hard to have.

**BRAESIDE SCHOOL**  
Braeside, like all other schools in Highland Park, celebrated Lincoln's birthday by an appropriate program of songs, poems, stories, and talks about Lincoln and made it an inspiring, patriotic occasion.

During February the children in their music classes are studying American patriotic songs. The Braeside children have been enjoying a series of motion picture programs given in assembly every two weeks. These films furnish both instruction and entertainment and are valuable in supplementing the work in geography and nature study.

Some of the industrial films showed the stories of cotton, wool, hemp, coal and lumber and illustrated some of the old and new ways of manufacturing and production. The nature films showed the life of birds, insects and animals and helped to bring about an appreciation of the beauties and wonders of the world in which we live.

These pictures are made possible by the aid of the P.T.A. It is one of the many helpful things they have done for the school.

**DEERFIELD SCHOOL**  
The fourth grade (Titus) has been studying about animal's children in science class.

In the first grade we made old-fashioned lace valentines for our mothers and fathers. We had our valentine party Thursday. Marlyn Dewey visited kindergarten Wednesday. Bobby Benz gave

us three new story books. The third grade is enjoying its geography lessons very much. One day we made butter. We each had a turn churning it and when it was all made we ate it on crackers. Dorothy Nelson brought an exhibit of chocolate and how it is made, so we are studying about that now in fourth grade.

Last week fifth graders studied about Lincoln. We wrote about some of his experiences. On Monday we read some of these stories in assembly.

### Public Library Notes

#### Historical Collection

Recent gifts to the Highland Park historical collection comprise a volume from Mrs. Ruth Gaddis Jeffries and a condensed map of Highland Park, presented by Mr. R. W. Phelps. "Commonplace Book, 1854-1934," compiled by Mrs. Jeffries, is a collection of both prose and poetry. The first part was written by her mother, a young lady living during the middle of the nineteenth century. By way of contrast, the second half shows how four generations later some of the sixteen-year-old great grand-daughters look at the same problems.

The map was drawn by D. D. Corrough and makes an interesting addition to the maps of the city.

#### Work Projects of Lasting Value

The Highland Park Public Library is in receipt of copies of a booklet prepared by the Illinois Emergency Relief Commission, entitled "You Can Help Put Your Unemployed Neighbor To Work." The booklet is liberally illustrated with photographs of meritorious work projects which have been carried out in different parts of Illinois and is particularly interesting and timely, in view of the Federal Administration's emphasis on work relief. It was issued by the Illinois Emergency Relief Commission for the purpose of assisting local communities in developing projects of merit and lasting benefit to the community, as well as furnishing work for unemployed citizens now on relief. This booklet contains a picture of the historical room on the second floor of the library building.

#### Child Psychology

Those who heard Dr. John Morgan, professor of clinical psychology at Northwestern University, on Tuesday last at the Highland Park Woman's Club will find the following of his books in the library. "Child Psychology," "Psychology of the Unadjusted School Child," "Strategy in Handling People."

#### Parties and Politics

Coming elections and recent events in government, local and federal, bring politics and parties before us.

Knowledge of the recent changes may be found in such books as: "Illinois Voters' Handbook," "Illinois Election Laws," prepared for the use of election officers. "Illinois Primary Election Laws," "Illinois Blue Book, 1933-34," "Your Government," by W. S. Sayre. An outline for every American voter. "Government—Not Politics," by F. D. Roosevelt. "Less Government or More?" by Louis Brownlow and C. S. Ascher.

#### Distinctive Service After Seventy

Ah, nothing is too late Till the tired heart shall cease to palpitate. Cato learned Greek at eighty; Sophocles Wrote his grand Oedipus, and Simonides Bore off the prize of verse from his compeers. When each had numbered more than fourscore years. And Theophrastus, at fourscore and ten, Had but begun his "Characters of Men."

Goethe at Weimar, toiling to the last, Completed Faust when eighty years were past. These are indeed exceptions; but they show How far the gulf-stream of our youth may flow Into the arctic regions of our lives, Where little else than life itself survives.

—Henry Wadsworth Longfellow

Abbott, Lyman—At eighty was still preaching twice a month.

Barton, Clara—At eighty-one represented her country at an international convention in Russia.

Clemenceau—Premier the second time from seventy-six to seventy-nine.

Eliot, Charles W.—Edited his famous "Five-foot Shelf" at seventy-five.

Franklin, Benjamin—Represented

his country in France from seventy to seventy-nine.

Holmes, Oliver Wendell—Associate justice of the United States Supreme Court until ninety-one.

#### FHA Sponsors Radio Broadcast Programs

Interest in Federal Housing Administration radio programs is increasing. Five broadcasts, containing news and information for property owners and the general public, are sent weekly over the leading networks of all national radio chains.

These broadcasts may be heard Sundays at 11:15 a.m., Central Standard time over the National Broadcasting Company's Red network; Wednesdays at 11:45 a.m., Central Standard time over the Columbia Broadcasting System; Thursdays at 10:30 a.m., Central Standard time over the Red network of the National Broadcasting Company; Fridays at 10:15 a.m. Central Standard time through the American Broadcasting Company; and Saturdays at 5:45 p.m., Central Standard time over the National Broadcasting Company's Blue network.
