

THE CROOKED LAWYER

No profession should hold to higher levels of honor, integrity and plain honesty than should the law.

Mr. Cooper cites almost incredible instances of lawyers who are retained by known criminals and are given large sums of money to use in any way they like—so long as acquittal is obtained for the underworld client.

Bar associations, the judiciary and honest individuals are working tirelessly to rid society of this type of lawyer.

The law is the very life-blood of society. Its honest administration is our main defense against medieval social darkness.

FATAL ERRORS

Traffic accidents were more numerous and more severe in 1934 than any previous year.

Eight of the worst driving mistakes responsible for last year's tragic record are listed by the National Bureau of Casualty and Surety Underwriters as follows:

- (1) Driving too fast for conditions, a cause named specifically in 22 per cent of all accidents resulting in fatalities charged to drivers alone, and a distinct and sometimes controlling factor in accidents attributed to many other causes.

- (1) Crossing between intersections, a mistake that accounted for more than 25 per cent of all pedestrian fatalities.

Motorists and pedestrians! Avoid these fatal errors in 1935—and you will be doing your part to reduce the traffic toll.

Council Meets First Quarter Objective

The North Shore Area Council set for its objectives in new Scouts in the year 1935, 447 new Scouts. It spread that objective over three quarters of the year so that the objective would be 149 new Scouts during the first, second and fourth quarters.
