Raymond Moore, of Grosse Pointe, Michigan, has been selected as the principal of the Lake Forest high school. He will be assisted by eleven full-time teachers, seven of whom will be transferred from the Highland Park school. There will also be three part time teachers.

Lake Forest College Graduate
Mr. Moore spent the earlier part of his life in Lake Forest and at

Mr. Raymond Moore graduated from Lake Forest college, graduating from there with an A.B. in 1920. In 1930, after several years of teaching, he obtained his degree of master of education from Harvard. "Secret Garden" Proves Success of Children's Theatre

The presentation of the "Secret Garden" by the Children's Theatre on Saturday afternoon has proved the success of the venture organized and directed by Miss Catherine Marie Geary, a local young woman, to have in Highland Park a Children's Theatre which would be entirely a civic affair, local children reenacting popular children's classics for the enjoyment of the community.

The list of characters was as follows:

Martha Sowerby	Phyllis Stryker
Mary Lennox	Patty Farrell
Robin Redbreast	A. Muller
Mrs. Medlock	Betty Bowen
Ben Weatherstaff	Ted Pohrte
Dickon	Ned Garst
Collie	David Johnson
Mem Sahib	Lucille Marika

Ancestors
Patsy Haynes, Lorraine Weaver, Barbara Prudden, Elizabeth Davis, Barbara Patterson, Irene Sheridan, Flora Hoffman, Lucille Marika.

Despite all difficulties which naturally are to be met by a huge undertaking of this kind the organization guide solely under Miss Geary's direction has survived and more definite and extensive plans are being contemplated for the Children's Theatre of Highland Park next Fall.

There is a distinct need for such an organization both from a recreational as well as educational standpoint as evidenced by the wealth of talent that was displayed by those who participated so creditably in the difficult character portrayals in Miss Geary's adaptation of "The Secret Garden" by Frances Hodgson Burnett the unusual work displayed by the Dancing department under Miss Georgia Jessep and the enthusiasm of numbers who attended and co-operated.

Anyone vitally interested in the organization or in furthering the Children's Theatre movement for Highland Park should communicate with the director, Miss Geary at H.P. 340 as soon as possible. Contributed.

DRY LAW BECOMES EFFECTIVE MAY 15

No City Ordinance Necessary To Enforce Law Passed Here April 15

According to the state liquor law, no city ordinance providing for the administration of the dry status of Highland Park under the recent election is necessary, and local officers would not be dependent upon such an ordinance to enforce the law, as they are sworn to uphold the state law, under which Highland Park is "dry."

Mayor Metzger stated yesterday (Wednesday) that as the state law defines as alcoholic liquor, anything containing more than one-half of one per cent of alcohol by volume, and Highland Park voted to prohibit the sale of alcoholic liquor, any sales in Highland Park are automatically illegal. This, he stated, does not prohibit the delivery in Highland Park from an outside source, but outlaws only the retail sale here.

The law, voted into existence here on April 15, does not become effective until thirty days after the election, but no formal notification to those now engaged in the retail is expected to be made at that time, as under the statute, the election or vote is considered a judicial notice.

Rector's Guild Plans Spring Fashion Show

Last spring the Rector's Guild of Trinity Episcopal Church presented its idea of an evening of song and humor, fun and dancing, in its lively "radio revue." This spring the event is to be an afternoon of fashion, tea and bridge.

The bridge will be of one's own making, the tea tables will be delightful, but the models and clothes they display will be something one does not wish to miss. Well known Highland Parkers, in and out of the Rector's Guild, will model a smart and well chosen array of clothes for all occasions and for all types: sportswear, spectacular and otherwise, afternoon and evening gowns as well as all that is chic in modern bathing suits and accessories, a glimpse of what will be seen this summer along the shores of Lake Michigan and in Exmoor's newest swimming pool.

A complete list of the names of those who are to make up this group of models will be given in next week's issue of the Highland Park Press.

Mrs. Charles Perrigo, chairman of the guild's social committee, is in charge of the party. She is assisted by Mrs. Harold Wessell, as chairman of the fashion show, and Mrs. George Grannen, as chairman in charge of tickets. Mrs. Julian E. Smith is president of the Rector's Guild.

This fashion show is being made possible through the courtesy of The Sports Shop of Highland Park, Winnetka and Lake Forest. The party will be given in the main dining room of the Moraine Hotel. Tickets may be obtained from any member of the Rector's Guild. —Contributed.

WILLIAM M. DOOLEY introduced Mr. Dooley with the following words:

"Mr. Chairman and Fellow Members: An election was held in Highland Park about ten days ago. Five men, good and true, were chosen to administer our city government during the approaching four years. Our Rotary club is proud and happy indeed to furnish two of those five men good and true. The ranking official of those five, the Mayor-elect, William M. Dooley, is our honored guest and speaker today.

"At this moment and on this occasion, Bill Dooley deserves an introduction more elaborate than I am able to give. He is one of the few men who has lived in Highland Park 68 years, for the greater part, enjoying the inspiration and companionship of a most wonderful better half. During that extended period, he developed a standing and popularity, remarkable and unusual, a standing and popularity of which any of us would be proud.

"He engaged upon his public career early in life, being elected City Treasurer in 1887. Subsequently, he served as City Alderman, Mayor, Postmaster and School Treasurer. In none of these positions of public trust has Bill Dooley's integrity or ability ever been questioned. (Continued on Page 7)

Entire Burden of Relief to Fall on Township Until an Agreement Is Reached Between Local and Federal Relief Administrations

EMPLOYMENT OFFICE HERE TO STAY OPEN

Gregory Sheahan and Workers To Serve Without Pay Until Adjustment Is Made

Although he and his workers will be forced to serve without pay until some agreement is reached between Harry L. Hopkins and Illinois relief administrator, Gregory M. Sheahan, manager of the Illinois free employment office, has announced that he will keep the office open for service.

Mr. Sheahan feels that due to the large number of jobs already secured for local people and the large number registered, the office is performing a function so beneficial to Highland Park, that all efforts should be made to continue its existence and he and his workers are willing to serve without pay until such time as some arrangement for its official continuance can be made.

Although in existence only two and a half months, the office has already found over 150 jobs for general maids and day workers, as well as various other types of employment.

The office has several such positions open at the present time and urges householders in need of help to phone the office H. P. 1033 as the shutting off of local relief will create an unusually great need among the unemployed for any type of work.

Under the conditions dictated to the State of Illinois by the order of Harry L. Hopkins, federal relief administrator, all federal relief in Highland Park has been discontinued for an indefinite period of time. The order affects the Illinois Free Employment Service as well as the other branches of relief, but Gregory Sheahan, manager of the office stated that he and his co-workers will keep the office open, serving without pay, as long as possible. A complete statement concerning the employment office appears elsewhere in this paper.

The immediate effect of the order will be to throw the entire burden of relief upon the township. Supervisor W. W. Steele stated to a representative of the Highland Park Press that until the matter is adjusted he will confine the relief distributed by his office to furnishing food and such medical attention as is an emergency nature.

"I will do all that I can to care for the hungry and the sick," Mr. Steele said. Due to the fact that the recently passed township levy will be wholly inadequate to care for all the relief cases of every nature now existing in Deerfield township, Mr. Steele said that unless, and until, federal aid is resumed, the only salvation for the situation apparent to him at the present time, is for the state to make some distribution to the various counties of the sales tax money now on hand. If this, or some other similar course is not adopted, township funds will rapidly be depleted.

The situation as we go to press (Wednesday afternoon) hinges upon the passage of the three per cent sales tax bill now being considered. If the bill is passed with 77 votes the emergency clause will be inoperative and funds will not be available until July 1. However, if a total of 102 votes are secured for the bill, the emergency clause providing immediate funds for the continuance of the work will be in effect.

Mrs. Nellie P. Flinn, of the Highland Park Social Service, stated that due to the fact that their funds are budgeted for the type of work regularly handled by the organization, they will be unable to help any but their regular type of cases except for occasional hospitalizations. They will, however, be able to help the supervisor in case work and service where no funds will be required of the Social Service. The type of case regularly cared for by the Social Service is known as the "border-line case" and consists of those who, although not on relief, must have help in some emergency. The prime purpose of the organization, according to Mrs. Flinn, is to keep people off the relief rolls.

She further stated that the personnel of the Social Service regards the present situation as temporary, and expects some equitable adjustment to be made in the near future.
