William M. Dooley Addresses Rotary Club

Continued from page 1 "During those many and busy years, deservedly and uninterrupted, he has enjoyed the complete confidence of the community, dwelling and growing constantly in the hearts, in the esteem, in the affection of his fellow men.

"At three score and thirteen, once more he enters the political arena. Against a most worthy opponent, with a smile upon his lips and a twinkle in those blue Irish eyes, Bill Dooley once more modestly walks away with the highest local political honor, the mayoralty of this charming city on the lake.

"Fellow members, Bill Dooley has been my friend for twenty-five years. Bill Dooley has been my business associate. Bill Dooley is my guest today and it is my pleasure and my privilege to introduce to you, Bill Dooley, the Mayor-elect of Highland Park."

After the introduction, Mr. Dooley addressed the Rotarians as follows: "I hope that you will be easy on me in case I should violate any of the rules that govern the conduct of your meetings.

"Most of you will remember that two or three years ago I had the honor of membership in the Highland Park Rotary club and I recall a little about the penalties imposed on those unfortunate members who forgot the proper form when addressing the president, greeting a brother too politely, having a birthday, marriage in the family, new baby or distinction in the political arena, etc., penalties were pronounced and execution promptly imposed with no opportunity for the victim to offer anything in extenuation of his momentary slip.

"Well, I claim immunity from these penalties because I am not now a member and therefore not subject to the rules that govern.

"My good friend, the gentleman who is responsible for my appear-

ance at this luncheon, has taken a long chance in presenting me as a speaker. I plead with you earnestly to forgive him, he was ill and not quite himself or he would not have taken such a chance. He figured that because of my election as an officer of the City I might like to say a few words relative to the duties and obligations of the office and the welfare of the people whom I am called upon to serve.

"I held the same office twenty-five years ago. I was then operating under the aldermanic form of government. I was quite familiar with that form which, about twenty years later was changed to the commission form and I say very frankly that I have only meager knowledge and many doubts about the exact set-up that confronts me under the new form.

"Now that I have the job, I realize more keenly, how seriously I failed to comprehend the obligations and responsibilities incident to the election.

"I feel that I would be an ingrate if I failed to express my keen appreciation and deep gratitude to the people of Highland Park for the kindness and confidence they have given me on many occasions and this is a good opportunity to extend that expression of gratitude to you members of the Rotary.

"It seems to be a very hard thing to carry on a political campaign without the use of mud and other objectionable means and I am happy to say that the campaign just closed was notably free from anything of that kind.

"I have great respect and esteem for the gentleman who was my opponent and I have reason to think that he feels the same way toward me. I am sure that the attitude taken by his supporters about the Eastside-Westside division of the city was regarded by him as a mistake that brought him much embarrassment and no advantage. It is safe to say that it will not trouble us again as long as we retain the com-

mission form of government. "I think that it is generally conceded by the citizens of Highland Park that Mayor Metzger and the commissioners who worked with him during the last four years gave us a highly commendable and satisfactory administration, considering the handicap of inadequate funds at their disposal.

"It is my fervent hope that the new administration will secure results equally commendable and satisfactory, I know that it will be a difficult task in view of the fact that revenues will be considerably less than they were last year. So the policy of care in expenditures must of necessity be continued.

"I regret, that I cannot, at this time, give you facts and figures regarding the actual condition of the city's affairs. I am sure that you are all anxious to learn all that there is to know of that subject. I gleaned in a few minutes talk with Mayor Metzger a few days ago that the city is in pretty fine shape financially but that great care must be taken to keep it that way.

"I have lived in Highland Park a long time, 68 years to be exact, watched it gradually develop from a wild primitive condition into a haven of happy homes and contented people. There are many things that can be done to increase that happiness and contentment, new lighting system in our streets, new sewer system in many places, street improvements, increased bathing facilities, community house, etc. However, we must all agree that these things cost money, a way must be found to finance them before we can be justified in moving for their accomplishment.

"Now just a word about cooperation, we need the cooperation of the people and we are confident, that we will get it. I promise to do the utmost to the best of my ability, using every means at my command to maintain the high standing of Highland Park as a residence suburb of Chicago."
