

Community Garden Class Visits Three Estates

The Community Garden class enjoyed a tour of gardens on July 30. The display of midsummer flowers at the Kuppenheimer estate in Winnetka was a beautiful sight. Beds of annual larkspur, many varicolored snapdragons, a large space devoted to enormous dahlias, a sweep of improving lawn bordered by large apple trees on one side and gorgeous beds of phlox, petunias, foxglove, marigolds and other brilliant hued blossoms on the opposite side. Inviting benches under the trees looked especially welcome for the hot days.

While the Kuppenheimer gardens are on an extensive scale, the next garden visited, that of Mrs. James White on Tanner road, showed the class how a lovely formal garden can be planted on an intensive plan. On entering through a vine-covered arched gate one is immediately enchanted with the view. Just as if stepping into a story book scene there is the big apple tree, encircled at its base by the wooden seat, while along the length of the yard on both sides are borders of flowers.

After leaving this restful spot the class visited the Lansing Warner grounds in Hubbard Woods. The approach to the stately house is along a graveled road under magnificent trees. The garden is formal with a lovely pool in its center. Comfortable chairs on the terrace overlook the blue lake. Along a smooth stepping-stone path one comes upon a tea house nestled under the trees. The screened porch furnished with blue wicker looks over a garden terraced down the side of the bluff. A cozy living-room with card tables and easy chairs is visible through the French doors. At the rear of the house is an open space carpeted with tan bark, the central feature of which is an oven and barbecue.

The schedule of the next trip for the garden class on August 13 is as follows:
The George Pick estate, 1520 So. Sheridan Rd.
The Robert Mandell estate, 1107 So. Sheridan Rd.
The John Oliver estate, 630 No. Sheridan Rd.
The John McDougall estate, 522 No. Green Bay Road.
The O. H. Walker estate, 83 Elmwood Ave.
All these homes are in Highland Park. Cars will leave the Woman's Club house at 1 p.m.

France, England, Russia, Germany and Japan don't allow an alien to work until their own subjects are employed. We have 6,000,000 unemployed here drawing relief and looking down American jobs. And we have an immigration ring passing them in here at the rate of \$200 a year. Ponder that!—Philadelphia Sunday Dispatch.
