**Mineral Resources of State of Illinois**

Few people know or really appreciate the mineral wealth of our state. The Department of Mines and Minerals have fixed up a display which shows the mineral resources of the state together with many things which have been developed by the U. of Illinois, shown in the picture accompanying this article. This display is attracting a great deal of attention over the state and it will shortly be found in the office of the Director of Mines and Minerals. It is of great educational value not only to the school children but to the people of the state in general. Those visiting the State House are urged to be sure to see this display.

**July Sales Tax Brings in Over Four Million**

Although the increase in the Illinois state sales tax will not show until the next returns are in, collections for July totaled \$4,094,947.22, the second time that returns have shown more than four million dollars collected in one month. May collections were \$4,070,626.62.

A royal way to serve ice cream is "Apricots Parisienne." You poach halved apricots in their syrup, flavor with vanilla, cool and drain. When ready to serve press halves on either side of a ball of vanilla ice cream and set upon macaroons. Then cover with flavored whipped cream and sprinkle with chopped filberts.

Coupe Palm Beach is another Ritzy arrangement of ice cream. A scoop of vanilla ice cream is put in a coupe glass. Around it are placed melon balls, ripe strawberries and small sections of orange, all of which have been marinated in honey. One or two spoonfuls of the honey are poured over the ice cream.

A "Black and White" sundae is interesting. It is served in parfait glasses and consists of alternate spoonfuls of chocolate and vanilla ice cream, with chopped nut meats between. Pour in fudge sauce and top with whipped cream.

Sauce on ice cream or any dessert serves the three-fold purpose of moistening the dish, adding flavor and making the servings go farther.

A simple ice cream, such as vanilla, is lovelier and more delectable if mantled in a luscious fruit, fudge or nut sauce of contrasting color and texture. Most ice creams are better for some such complement or "escort," but to most people vanilla almost demands one!

A rich frozen dessert, such as a mousse or parfait, does not need any sauce or adornment.

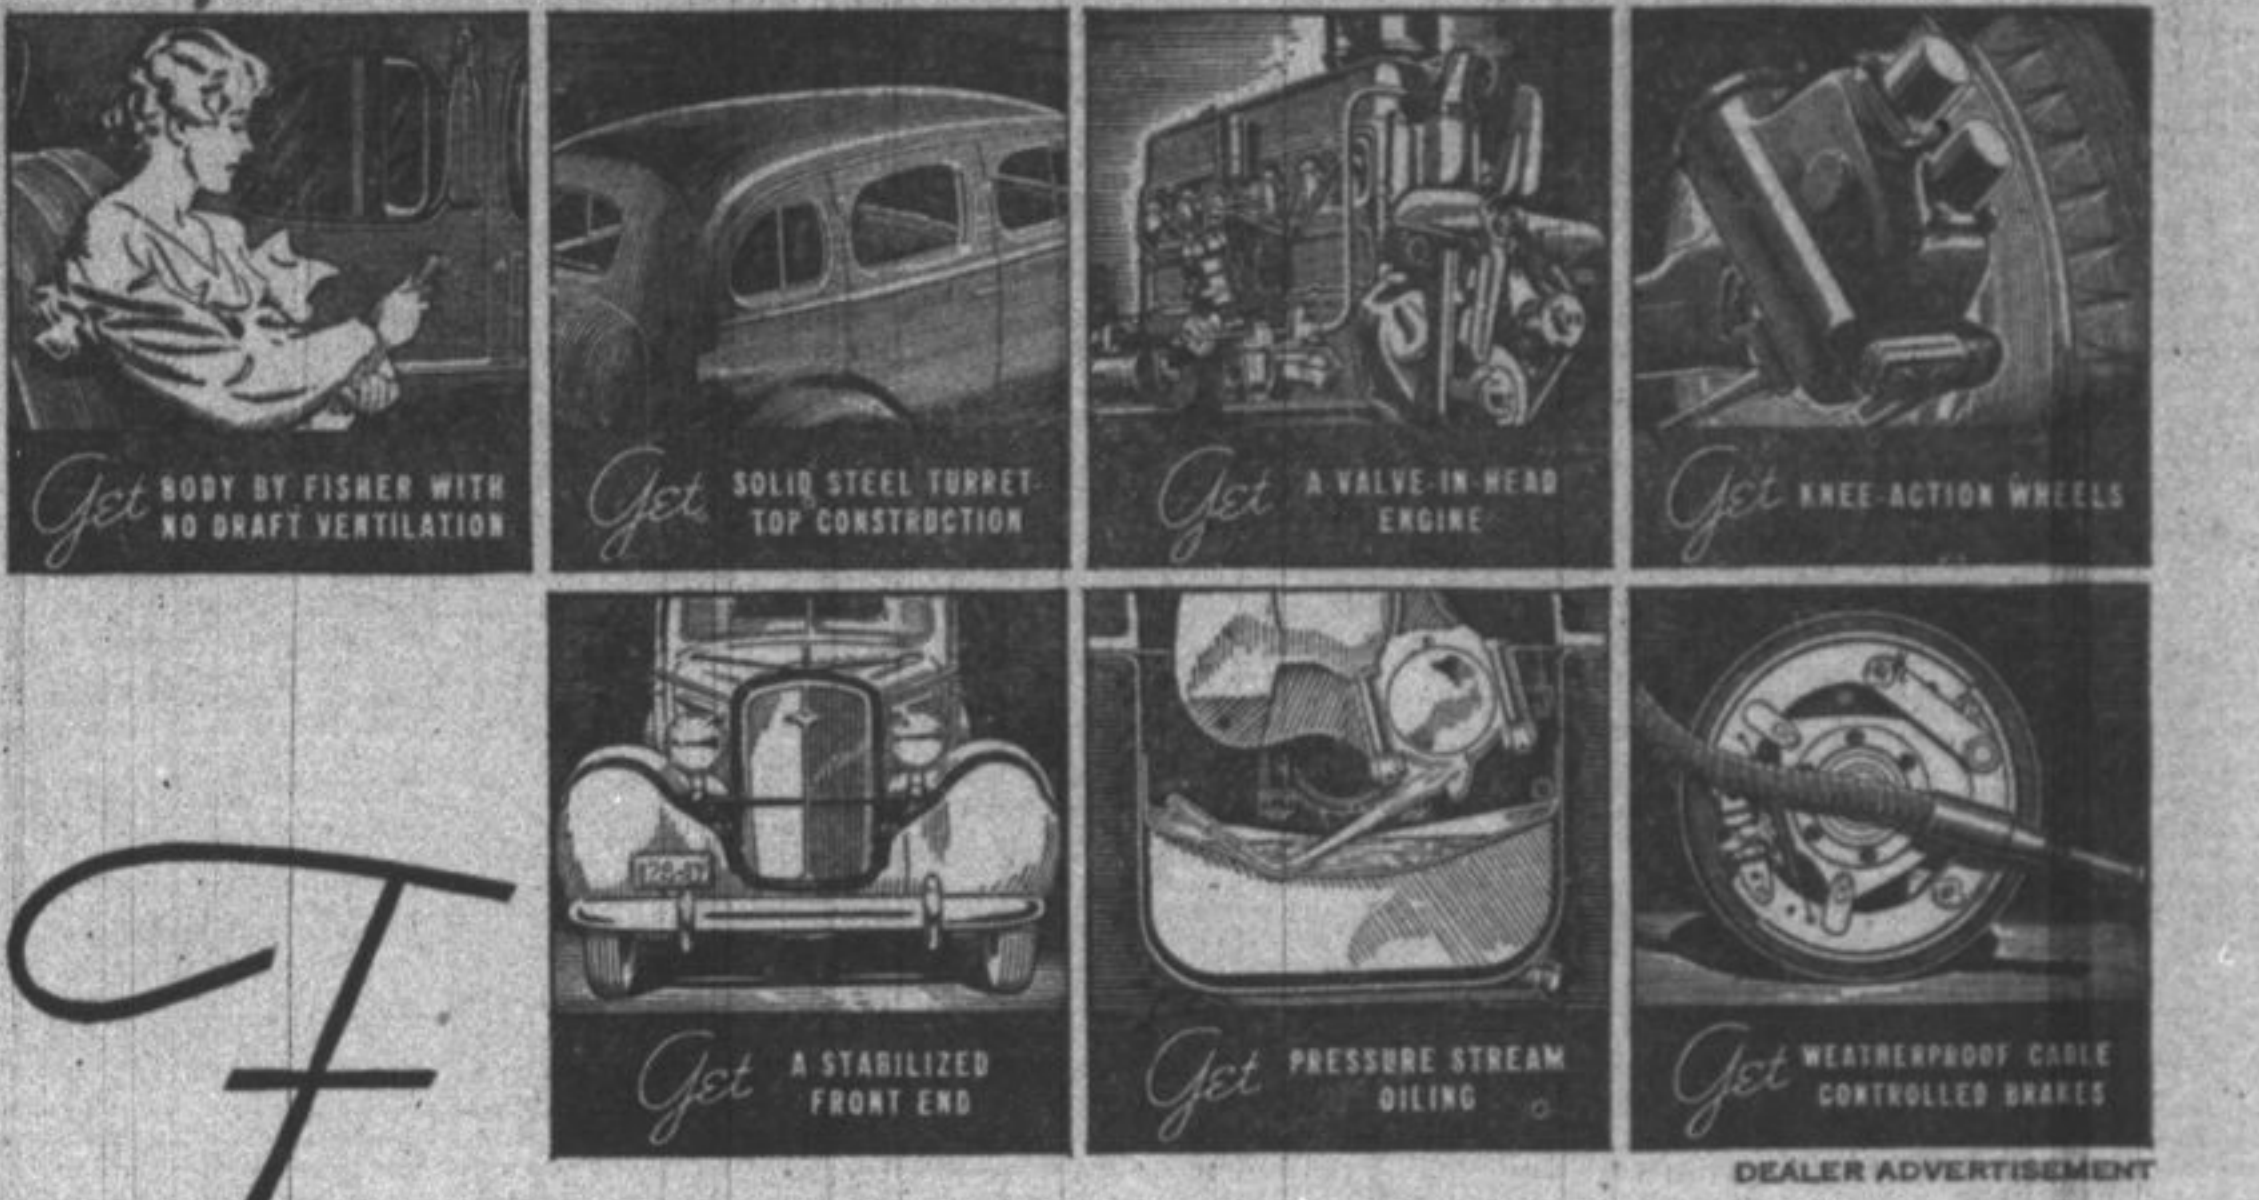

One of the easiest sauces for plain vanilla ice cream is made by melting a chocolate-and-nut candy bar slowly over low heat or hot water, and adding one or two spoonfuls of cream.

Almost any fruit jelly melted and flavored or thickened a little makes a delicious sauce for ice cream. A syrup of stewed cherries added to an equal quantity of red currant jelly which has been melted, makes a delightful cherry sauce.

Ice cream may be varied interestingly by adding freshly grated coconut or peanut brittle to the ice cream mixture during the freezing process. This of course is when you are making your ice cream at home in the automatic refrigerator.

It is comparatively simple to make a three-flavored ice cream in the freezing trays of your electric refrigerator. This is the way to do it. Use three flavors of ice cream or mousse, or two kinds of ice cream and a water ice. Fill your freezing
