a talk at our assembly this week her brother had helped trim. The about what fun it is to draw. He moonlight shone into the bedroom. showed us that we should never Peggy thought perhaps it would grade in Ravinia. draw two trees exactly alike. He light up the tree and make the big drew two or three different kinds star on top glitter. By this time and then he started to draw an oak Santa Claus might have even come tree but he finished up with two and gone, because they had really

Mr. Watson said that he has more fun drawing at home on old wrapping paper than he has going to the movies. He said that in the movie all you do is try to look around people's heads but you finally get so tired that you fall asleep: He gave a very funny demonstration of it all.

Mr. Watson then asked for a boy to volunteer to go up on the stage and have his picture drawn. After a lot of coaxing we got John Koon to go. He went up on the stage and shook hands with Mr. Watson and exchanged friendly greetings. though the big silver star at the top Then Mr. Watson told John to go over to the other side of the stage idently tired because he sat down in a chair that was near him. Mr. to smile and the star began study of the beaver. He is one of the most remarkable of our wild be a star began study of the beaver. He is one of the most remarkable of our wild be a star began study of the beaver. He is one of the most remarkable of our wild be a star began study of the beaver. He is one of the most remarkable of our wild be a star began study of the beaver. Watson told him he would have to stand up if he wanted to have his picture drawn. So John stood up bed, before Santa Claus found her and looked across the audience. Mr. Watson told him that that was a fine pose and to hold it.

He made a rough outline of the shape of the head. When this was done, he began putting in the features. As he drew the nose, he said, "You never can tell how long a nose is going to be so you should always be sure to make it long enough in the beginning."

As he was saying this, he drew the line all the way to the edge of the paper. When he finished we discovered he had made the nose just a little too long so he shortened it a little and when he finished the picture it was a very good likeness. John took the picture with him and we had it hanging in our room at school the rest of the day and then he took the paper home with him.

We are very glad that Mr. Watson came over here to talk to us as we enjoyed it very much. Hugh Reading . . . Grade 8

It is so easy and simple to make contacts with out-oftown customers by telephone. Alert salesmen make frequent use of Long Distance telephone calls to talk with their customers and make additional sales in between regular personal visits. A telephone call is the quickest method of covering territory for those profitable "repeat orders." Clean up your sales territory before the holidays by telephone-selling-it may give you extra time to spend at home with your family during the Christmas and New Year season. The cost is small, wherever you call.

That you may have
